IT Dalle librerie agli espositori vetrina, dai sistemi componibili alle madie: la collezione Day raccoglie tutte le proposte Rimadesio dedicate al contenimento per la zona giorno. Soluzioni definite per specifiche funzioni, caratterizzate da un'estrema attenzione ad ogni dettaglio, da un design rigoroso e dalle infinite possibilità di personalizzazione grazie ad un'ampia scelta di materiali e finiture esclusive.

DE Vom Bücherregal bis zur Vitrine, vom Modulsystem bis zum Sideboard: Die Kollektion Day vereint alle Lösungen von Rimadesio für das Aufbewahren im Wohnbereich. Lösungen, die für spezifische Funktionen definiert wurden und sich durch eine extreme Aufmerksamkeit für jedes Detail, ein anspruchsvolles Design und dank einer großen Auswahl an exklusiven Materialien und Verarbeitungen durch endlose Möglichkeiten auszeichnen.

FR Des bibliothèques aux vitrines, des systèmes modulaires aux bahuts: la collection Day regroupe tous les produits Rimadesio dédiés au rangement pour la zone jour. Des solutions définies pour des fonctions spécifiques, caractérisées par une extrême attention à chaque détail, par un design rigoureux et par les possibilités infinies de personnalisation, grâce à un large choix de matériaux et de finitions exclusives.

ES De las librerías a las vitrinas, de los sistemas modulares a los aparadores: la colección Day systems incluye todos los productos Rimadesio dedicados a la contención para la zona día. Soluciones definidas para funciones específicas, caracterizadas por una extrema atención a cada detalle, por un diseño riguroso y por las infinitas posibilidades de personalización gracias a una amplia selección de materiales y acabados exclusivos.

RU В коллекции Day представлены все предложения Rimadesio, предназначенные для хранения вещей в жилой зоне: от книжных шкафов до шкафов-витрин, от модульных систем до тумб. Решения, предназначенные для выполнения конкретных функций, характеризуются исключительным вниманием к каждому элементу, строгим дизайном и бесконечными возможностями оптимизации под нужды заказчика благодаря широкому выбору эксклюзивных материалов и отделок.

汉语 从书柜到玻璃展示柜、从模块化系统到餐边柜：Day 日间系列涵盖 Rimadesio 所有日间空间的收纳方案。这些解决方案皆针对特定功能研发，有赖于广泛的材质选择与独家的表面处理，设计严谨、高度注重每个细节，无限客制化可能性为其特色。

FROM BOOKCASES TO DISPLAY CABINETS, FROM MODULAR SYSTEMS TO SIDEBOARDS: THE DAY COLLECTION INCLUDES ALL RIMADESIO PRODUCTS DEDICATED TO STORAGE FOR THE LIVING AREA. SOLUTIONS DEFINED FOR SPECIFIC FUNCTIONS, CHARACTERIZED BY AN EXTREME ATTENTION TO EVERY DETAIL, BY A RIGOROUS DESIGN AND BY THE INFINITE POSSIBILITIES OF CUSTOMIZATION THANKS TO A WIDE CHOICE OF MATERIALS AND EXCLUSIVE FINISHINGS.

BOOKCASES

THE ICONIC BOOKCASE IN THE PURSUIT OF LIGHTNESS AND PROJECT VERSATILITY. THE UPRIGHTS, FIXED FROM FLOOR TO CEILING AND ALWAYS CUSTOM-MADE, ALLOW A FREE POSITIONING OF THE ELEMENTS, IN THE DESIRED NUMBER AND AT THE DESIRED HEIGHT. THE EXCLUSIVE HOOKING SYSTEM ELEMENT GUARANTEES THE MAXIMUM STRUCTURAL SOLIDITY AND ALLOWS TO LEVEL EVERY ELEMENT.

IT La libreria all'insegna della leggerezza e della versatilità compositiva. I montanti, fissati da terra a soffitto e sempre su misura, permettono una libera disposizione delle attrezzature, nel numero e all'altezza desiderata. Un progetto versatile, pensato per esporre e contenere, destinato alla casa e agli spazi professionali. La varietà delle finiture, dal vetro alle essenze fino alle superfici in alluminio, consente una perfetta integrazione stilistica in ogni ambiente.

DE Das Bücherregal zeichnet sich durch Leichtigkeit und Vielseitigkeit aus. Die in Sondermaßen Pfosten, vom Boden bis zum Decke fixiert, ermöglichen dem Kunden eine freie Anordnung der Ausstattung, in der gewünschten Anzahl und Höhe. Dies ist ein vielseitiges, für den häuslichen und professionellen Raum bestimmtes Modell, das entworfen wurde, um hergestellt zu werden und um etwas zu verstauen. Die Vielfalt an Oberflächenmaterialien, von Glas über Holz bis zu den Aluminium-oberflächen, ermöglicht eine perfekte stilistische Integration in jeder Umgebung.

FR La bibliothèque caractérisée par la légèreté et la polyvalence de la composition. Les montants, fixés du sol au plafond et toujours sur mesure, permettent une disposition libre de l'équipement, dans le nombre et à la hauteur désirées. Un projet polyvalent, conçu pour exposer et contenir, destiné à la maison et aux espaces professionnels. La variété des finitions, du verre au bois, aux surfaces en aluminium, permet une intégration stylistique parfaite dans chaque environnement.

ES La librería se caracteriza por su ligereza y versatilidad compositiva. Los montantes, fijados al suelo y techo y siempre a medida, permiten una disposición libre del equipamiento, en el número y altura deseados. Un proyecto versátil, diseñado para exhibir y contener, destinado para el hogar y espacios profesionales. La variedad de acabados, del vidrio a las esencias y superficies de aluminio, permite una perfecta integración estilística en cualquier entorno.

RU Библиотека, характеризующаяся легкостью и композиционной универсальностью. Стойки, закрепленные в пол и потолок в полном соответствии с размерами заказчика, позволяют свободно размещать оснащение в нужном количестве и на нужной высоте. Универсальный дизайн, предназначенный для экспонирования и хранения, идеально впишется в домашний и профессиональный интерьер. Благодаря разнообразию вариантов отделки – от стекла до дерева и алюминиевых поверхностей – они могут идеально гармонировать с любым интерьером.

汉语 Zenit 书柜以轻巧和多样组合性著称。立柱皆按尺寸定制，固定于地板和天花板两端，可根据所需的配件数量和高度自由配置。多样的玻璃与木材表面处理以及铝合金打造的表面为任何空间皆能营造出完美风格感。

Structure: 13 nero
Glass shelves: 63 grigio trasparente
Fronts: 700 tinto ebano taiga
Marble top: 183 noir saint laurent
W 5090 H 2655 D 500

EN In the bookcase version, Zenit expands its design potential with the introduction of a brand new backlit upright and new suspended cabinets which, like all Zenit accessories, can be freely positioned. The aluminium drawers with fully extractable runners are equipped with a new push opening system and soft-closing mechanism. Drawers and hinged doors fronts are available in glossy, matt, sahara, taiga and diamante lacquered glass or in Litech, in sahara and taiga wood with a three-dimensional effect, with a total of 165 finishings.

IT Nella versione libreria Zenit amplia le proprie potenzialità progettuali con l'introduzione di un montante retroilluminato e di contenitori sospesi che, come tutte le attrezzature di Zenit, sono liberamente posizionabili. I cassetti in alluminio, con guide ad estrazione totale sono dotati di un inedito sistema di apertura push e rientro ammortizzato. Il rivestimento dei cassetti e delle ante è disponibile in vetro laccato lucido, opaco, sahara, taiga e diamante oppure in Litech, in essenza sahara e taiga con effetto tridimensionale, per un totale di 165 finiture.

DE In der Ausführung als Bücherregal erweitert Zenit sein Gestaltungs-potenzial durch die Einführung einer hinterleuchteten Basis und von Hängeschränken, die, wie alle Zenit-Einrichtungen, frei positioniert werden können. Die Aluminium-Schubladen mit Vollauszug sind mit einem neuartigen Push-Open-System und Soft-Close-Rückführung ausgestattet. Die Paneele der Schubladen und Türen sind in glänzend oder matt lackiertem Glas, Taiga, Sahara und Diamante oder in Litech, Sahara- und Taigaholz mit dreidimensionalem Effekt erhältlich, insgesamt stehen 165 Ausführungen zur Verfügung.

FR Dans sa version bibliothèque, Zenit élargit son potentiel modulaire avec l'introduction d'un montant rétroéclairé et d'éléments de rangement suspendus qui, comme tous les équipements Zenit, peuvent être librement positionnés. Les tiroirs en aluminium, qui disposent de glissières entièrement extractibles, sont équipés d'un système inédit d'ouverture à pression avec amortisseur de fermeture. Le revêtement des tiroirs et des portes est disponible en verre laqué brillant, mat, sahara, taiga et diamante ou en Litech, dans les essences sahara et taiga avec effet 3D, pour un total de 165 finitions disponibles.

ES En su versión de librería, Zenit amplía su potencial de diseño espacial con la introducción de un inédito elemento vertical retroiluminado y contenedores suspendidos que, como todos los productos de Zenit, se pueden colocar libremente. Los cajones de aluminio, con guías totalmente extraíbles, cuentan con un inédito sistema de apertura push y retorno amortiguado. El revestimiento de cajones y puertas está disponible en vidrio lacado brillante, opaco, sahara, taiga y diamante o en Litech, en madera sahara y taiga con efecto tridimensional, para un total de 165 acabados.

RU В стеллаже Zenit расширяет свои собственные проектные возможности благодаря использованию стойки с подсветкой и подвесным ящикам для хранения, которые, как и все навесные элементы Zenit, можно размещать в любом месте. Алюминиевые ящики с направляющими полного выдвижения оснащены новой системой пуш-пул с амортизаторами. Отделка ящиков и фасадов доступна из глянцевого, матового, крашеного стекла, а также декоративного стекла sahara, taiga и diamante, а также из Litech, шпона sahara и taiga с трехмерным эффектом – всего доступно 165 вариантов отделки.

汉语 Zenit 书柜扩大了设计潜力，推出背部照明式立柱和悬吊式收纳空间，如同 Zenit 的所有部件，它们皆可自由配置。铝合金打造的抽屉设有抽拉式导轨，并搭配新型推弹系统和软关闭功能。抽屉和门扇的表面处理有亮面漆和哑光漆玻璃、Sahara、Taiga、Diamante 和 Litech 岩板可供选择；Sahara 木材和 Taiga 木材具有立体效果，共有 165 表面处理可供选择。

EN The indirect lighting system allows a latest generation LED to be inserted into the iconic upright which is only 25 mm wide, keeping the design of the original 1997 ceiling and wall fixing system unchanged. Thus, the Zenit bookcase system can be updated and improved over time without replacements or aesthetic variations, in line with the sustainability and durability common to the Rimadesio collection.

IT Il sistema di illuminazione a luce indiretta permette di inserire un led di ultima generazione nell'iconico montante di soli 25 mm di larghezza, mantenendo immutato il design del sistema di fissaggio a soffitto e a parete originale del 1997. In questo modo, il sistema librerie Zenit viene aggiornato e migliorato nel tempo senza sostituzioni né variazioni estetiche, in un'ottica di sostenibilità e durabilità comune agli arredi Rimadesio.

DE Das indirekte Beleuchtungssystem ermöglicht es, eine hochmoderne LED in der ikonischen, nur 25 mm breiten Basis einzusetzen und dabei das Design des ursprünglichen Decken- und Wandmontagesystems von 1997 beizubehalten. Auf diese Weise wird das Bücherregalsystem Zenit im Laufe der Zeit aktualisiert und verbessert, ohne dass es ersetzt oder ästhetisch verändert werden muss, unter dem Aspekt der Nachhaltigkeit und Langlebigkeit, die für die Möbel von Rimadesio selbstverständlich sind.

FR Le système d'éclairage indirect permet d'insérer une LED de dernière génération dans le montant emblématique de seulement 25 mm de large, en conservant intact le design du système de fixation au plafond et au mur, dont l'origine remonte à 1997. Le système de bibliothèque Zenit est ainsi actualisé et amélioré au fil du temps sans remplacements ni modifications esthétiques, dans cette optique éco-responsable et durable propre aux meubles Rimadesio.

ES El sistema de iluminación indirecta permite insertar un LED de última generación en el icónico montante de solo 25 mm de ancho, manteniendo intacto el diseño del sistema original de fijación a techo y a pared de 1997. De esta forma, el sistema de librería Zenit se actualiza y mejora en el tiempo sin sustituciones ni variaciones estéticas, con la mirada puesta en la sostenibilidad y la durabilidad propias del mobiliario Rimadesio.

RU Система непрямого освещения позволяет встроить современный светодиод в культовую стойку шириной всего 25 мм, сохранив при этом дизайн оригинальной системы крепления к потолку и стене 1997 года. Таким образом, без значительных эстетических изменений система книжных шкафов Zenit была обновлена и улучшена в соответствии с современными тенденциями с целью обеспечения устойчивости и долговечности, характерных для мебели Rimadesio.

汉语 间接照明系统能将最新一代的 LED 灯嵌入宽度仅 25 毫米的经典款立柱内，保留了 1997 年天花板和墙面固定系统的设计。通过此法，Zenit 改良书柜系统与时俱进，不断更新改良，美感却始终如一，进而体现 Rimadesio 家具可持续发展性和耐用性的共同点。

MODULARITY

Zenit bookcase

Encumbrance of the linear composition with shelves only

TECHNICAL DESCRIPTION

EN Zenit compositions are always custom-made in height, with wall or ceiling uprights. Shelves and TV shelf holders are available in four widths, up to a maximum size of 1400 mm.

IT Le composizioni Zenit vengono sempre realizzate su misura in altezza, con possibilità di montanti a parete o a soffitto. Le mensole e i mensoloni sono disponibili in quattro larghezze, fino alla dimensione massima di 1400 mm.

DE Zenit Anlage sind immer nach Mass in Höhe, mit Wand oder Decke-Pfosten hergestellt. Fachböden und Top-Fachböden sind mit vier Breiten verfügbar in Länge, bis zu einer maximalen Breite von 1400 mm.

FR Les compositions Zenit sont toujours sur mesure en hauteur, avec les montants à fixation murale ou au plafond. Les étagères, et les étagères base sont disponibles en quatre largeurs, jusqu'à une dimension maxi de 1400 mm.

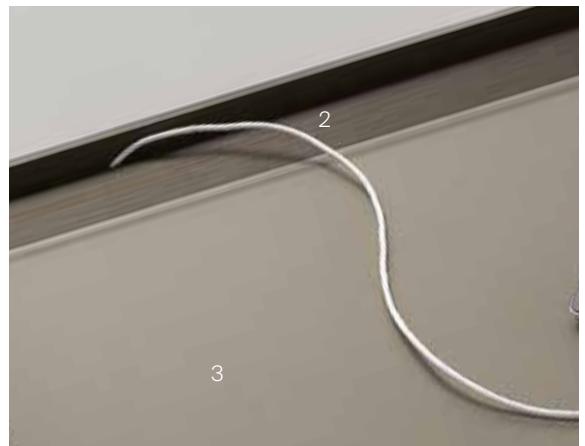

ES Las composiciones Zenit están siempre realizadas a medida en altura, con posibilidad de montantes a pared o a techo. Los estantes, y los estantes base están disponibles en cuatro anchuras, máxima medida de 1400 mm.

RU Композиции Zenit всегда изготавливаются по индивидуальному размеру по высоте, с возможностью настенного или потолочного монтажа стоек. Полки доступны в четырех размерах по ширине, вплоть до Максимальных 1400 мм.

汉语 Zenit 组合件的高度皆按尺寸定制·立柱可安装于墙面或天花板。层板和层板托有四种宽度可供选择·最大尺寸为 1400 毫米。

COMPONENTS

TV Hi-Fi shelf holder with lower shelf for decoder

1. Aluminium support for decoder in 14 brown
2. Aluminium cable channeling in 14 brown
3. Lacquered tempered glass in 99 caffè

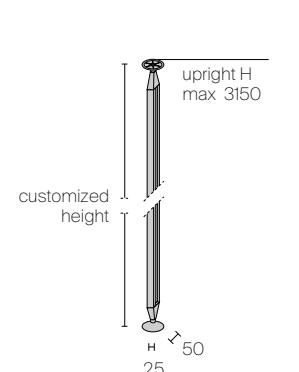

UPRIGHTS

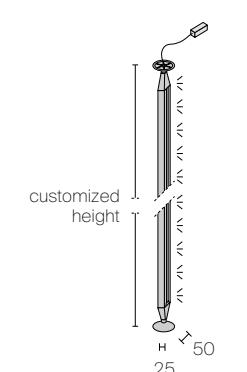

1. Ceiling upright
2. Wall upright
3. Shelf with perimetrical ring in extruded aluminium
4. Bayonet fixing between the shelf and the die casting support
5. Structural upright in extruded aluminium
6. Support with expansion fixing system which allows to adjust the position of the accessories

A MODULAR BOOKCASE SYSTEM, ENTIRELY IN EXTRUDED ALUMINIUM, BASED ON THE FREE COMPOSITION OF SQUARE AND RECTANGLE AS MODULAR SHAPES. A RIGOROUS GEOMETRIC IDEA WHICH ALLOWS TO CREATE BOOKCASES OF DIFFERENT DIMENSIONS WITH A STRONG SCENOGRAPHIC VALUE. PERFECTLY DOUBLE-SIDED, EQUIPPED WITH DRAWERS OR FLAP DOORS UNITS, OPUS DECORATES WITH PERSONALITY HOUSES OR PROFESSIONAL SPACES.

IT Un sistema librerie componibile, interamente in alluminio estruso, basato sulla libera composizione del quadrato e del rettangolo come figure modulari. Una concezione geometrica rigorosa che consente la definizione di librerie di varie dimensioni dal forte valore scenografico. Perfettamente bifacciale, attrezzabile con contenitori a cassetti o ante a ribalta, Opus si presta ad arredare con personalità ambienti domestici o professionali.

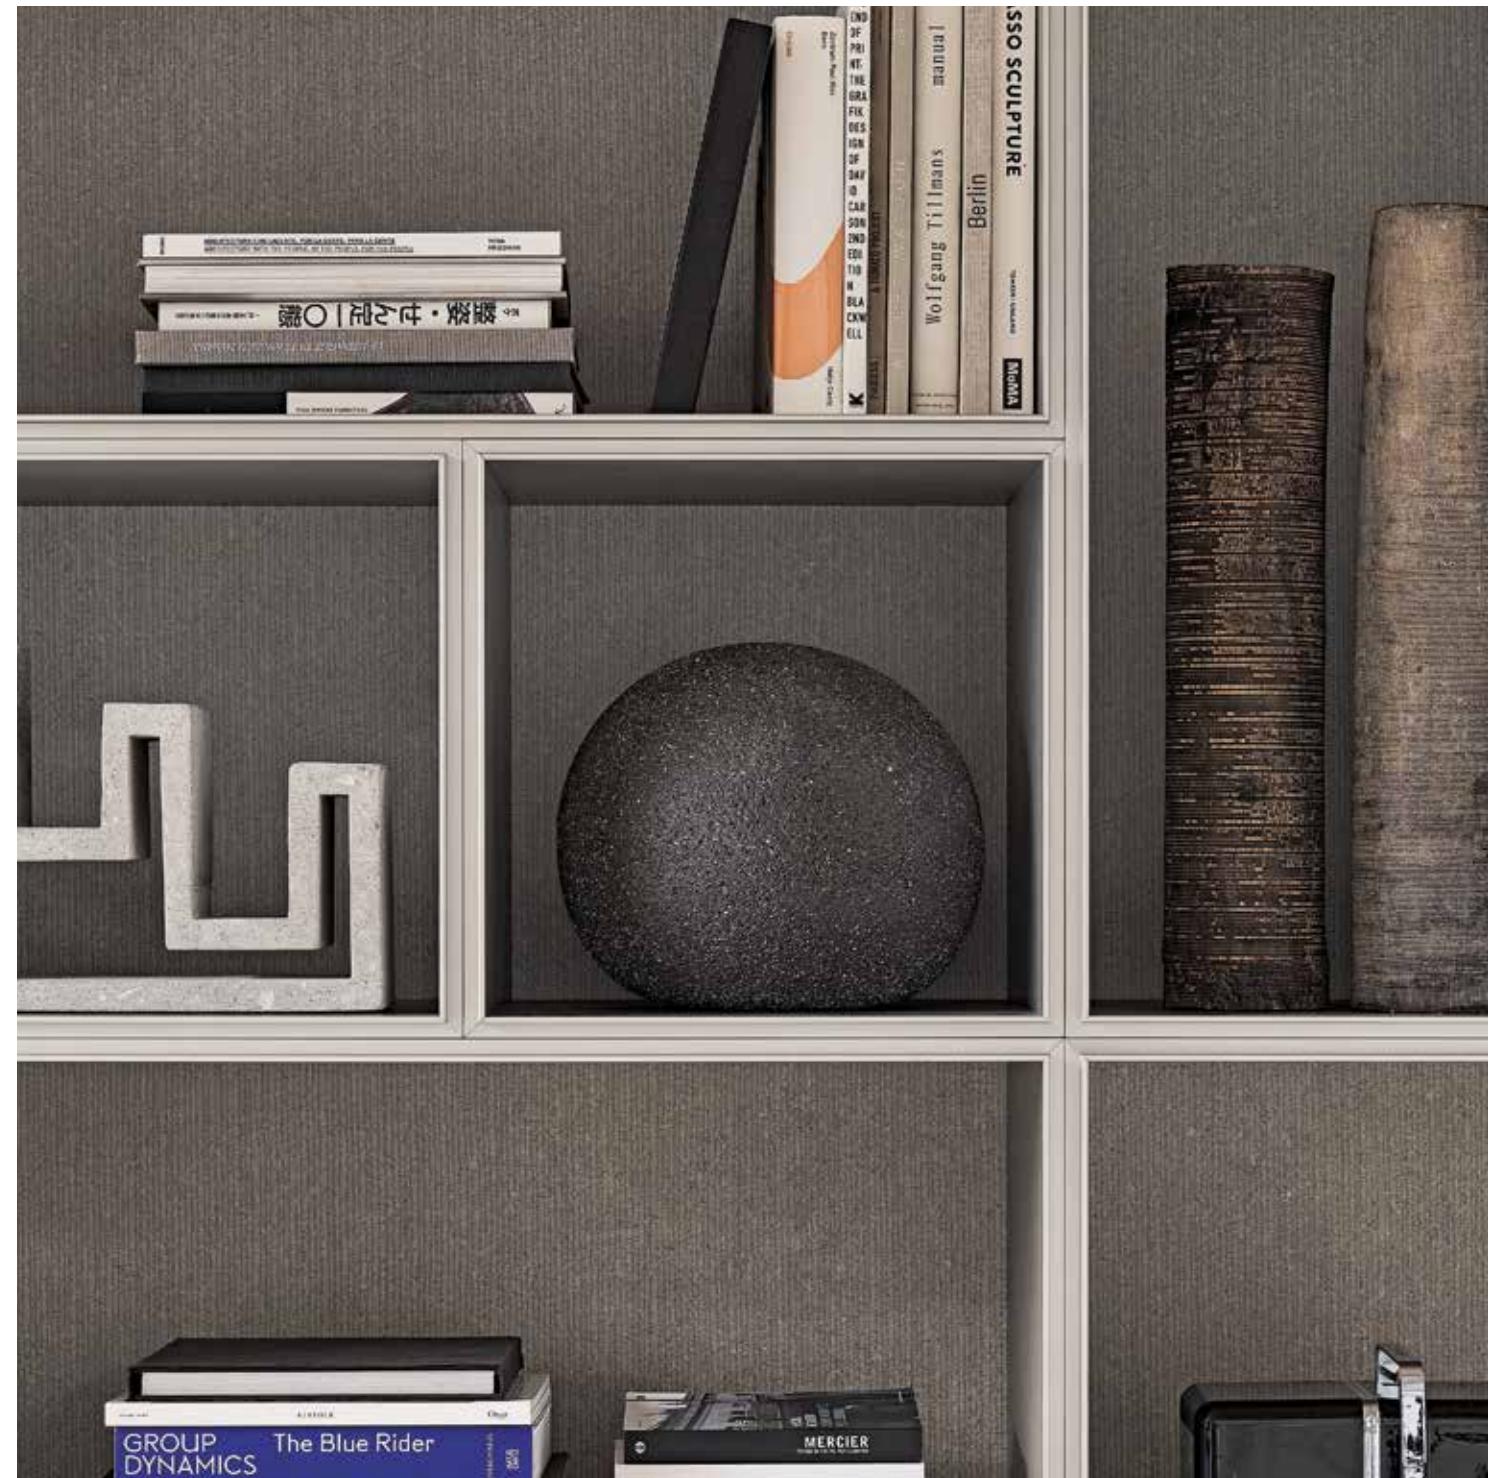

DE Opus ist ein modulares, komplett aus extrudiertem Aluminium hergestelltes Bücherregalsystem, das auf der freien Zusammensetzung von Quadraten und Rechtecken als modulare Figuren beruht. Es entsteht dadurch ein strenges geometrisches Konzept, das die Definition von Bibliotheken verschiedener Dimensionen mit einem starken szenografischen Wert ermöglicht. Dieses zweiseitige Regal kann mit Schubladen oder Klapptüren ausgestattet werden und eignet sich für die persönliche Einrichtung des Zuhause oder der beruflichen Umgebung.

FR Un système de bibliothèque modulaire, entièrement en aluminium extrudé, basé sur la composition libre du carré et du rectangle comme figures modulaires. Un concept géométrique rigoureux qui permet la définition de bibliothèques de différentes dimensions avec une forte valeur scénographique. Parfaitement bifacial, Opus peut être équipé avec de tiroirs ou de portes abatantes, et se prête à l'ameublement des environnements domestiques ou professionnels.

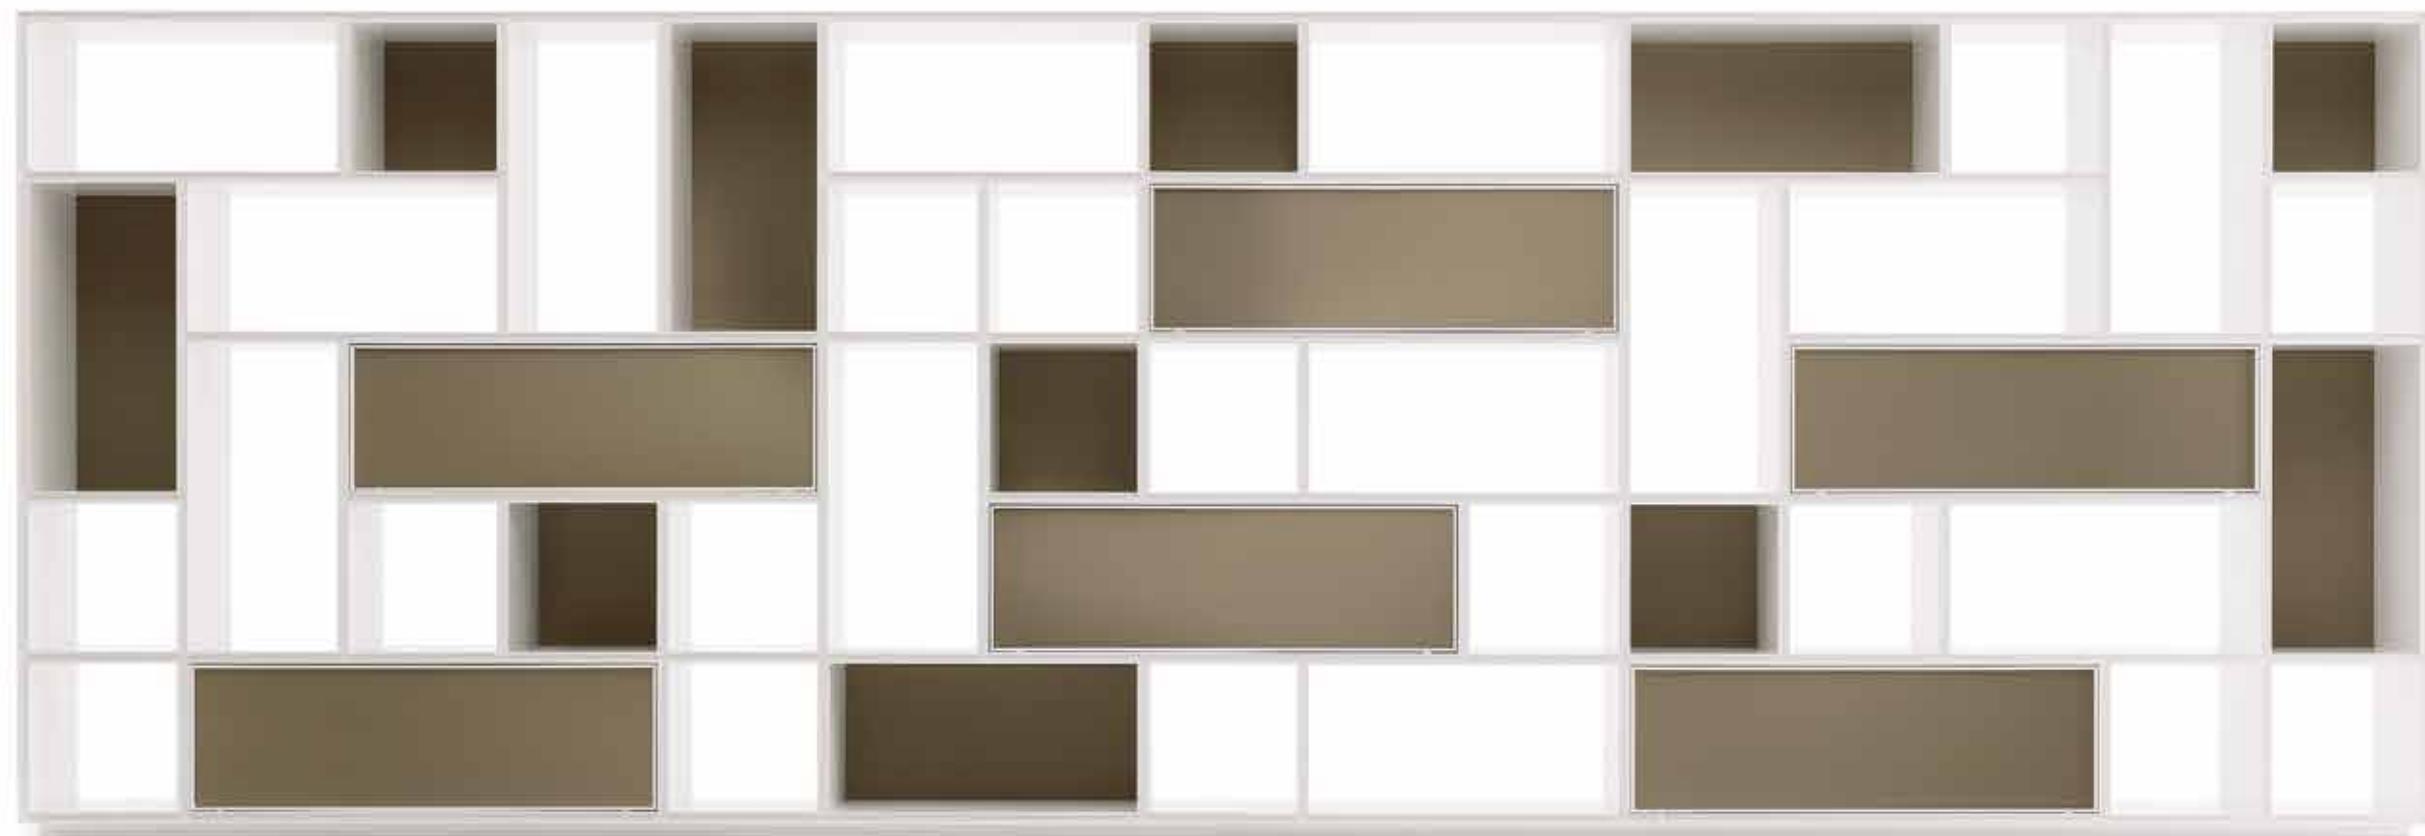

ES Un sistema modular de libreras, totalmente de aluminio extruido, basado en la composición libre del cuadrado y del rectángulo como figuras modulares. Un concepto geométrico riguroso que permite la definición de libreras de varias dimensiones con un fuerte valor escenográfico. Perfectamente bifacial, puede equiparse con cajones o puertas abatibles, Opus se presta para equipar con personalidad el hogar o entornos profesionales.

RU Изготовленная полностью из экструдированного алюминия модульная система основана на свободной композиции квадрата и прямоугольника как модульных форм. Строгая геометрическая концепция позволяет компоновать элементы стеллажа различных размеров с ярко выраженной декоративной ценностью. Opus позволяет придать индивидуальность домашнему или профессиональному интерьеру благодаря двусторонней компоновке, которая может быть оснащена выдвижными ящиками или откидными дверцами.

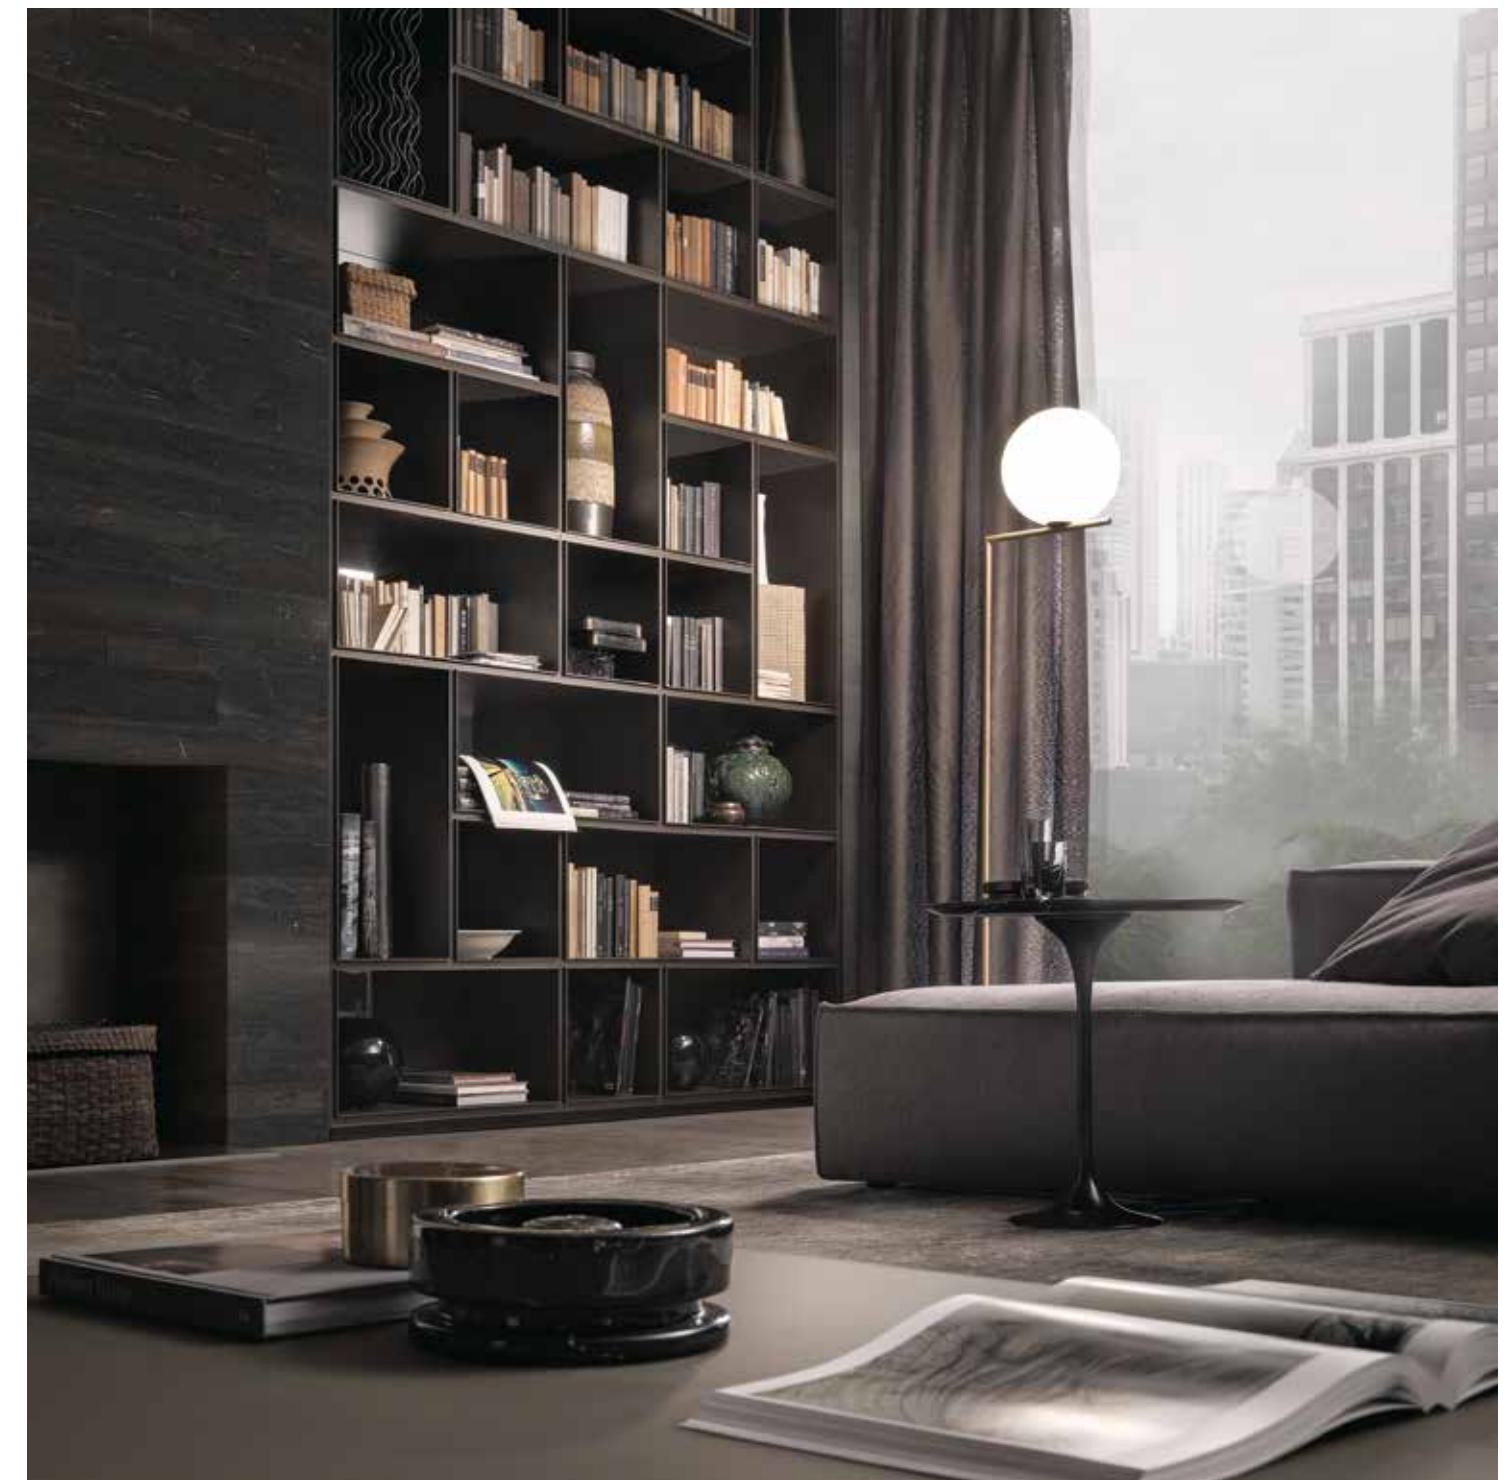

汉语 这款模块化书柜系统全由挤出铝合金打造，设计概念基于将正方形和长方形的模块单元自由进行组合。这项设计通过本身严谨的几何概念发展出各式尺寸的书柜，每一件皆具有高度观赏价值。书柜的双面设计臻于完美，可加装收纳抽屉或翻门，为居家和办公环境营造个性品味。

WIND IS THE ARCHETYPE OF THE BOOKCASE IN THE INTERPRETATION BY RIMADESIO: A MODULAR SYSTEM COMBINING AESTHETIC LIGHTNESS AND TECHNOLOGICAL INNOVATION. THE FOCUS OF THE PROJECT, ENTIRELY IN ALUMINIUM, IS REPRESENTED BY THE UNION BETWEEN EXTRUDED SHELVES AND DIE-CASTING UPRIGHTS, IN CENTRAL AND TERMINAL VERSIONS.

IT Wind è l'archetipo della libreria nell'interpretazione Rimadesio: un sistema modulare che coniuga leggerezza estetica e innovazione tecnologica. Il fulcro del progetto, interamente in alluminio, è rappresentato dall'unione fra ripiani estrusi e montanti in pressofusione, in versione centrale e terminale.

DE Wind steht für den Archetyp der Interpretation von Rimadesio: ein modulares System, welches ästhetische Leichtigkeit und technologische Innovation miteinander vereint. Im Mittelpunkt des Projekts steht die Einzigartigkeit der Verbindung aus stranggepressten Profilen der Fachböden und dem aus Aluminiumdruck gegossenen Pfosten. Sowohl in der vertikalen als auch der horizontalen.

FR Wind est l'archétype de la bibliothèque dans l'interprétation de Rimadesio: un système modulaire qui combine légèreté esthétique et innovation technologique. Caractéristique du projet, entièrement en aluminium, est représenté par l'union des étagères extrudés et des montants en moulage d'aluminium en version centrale ou terminale.

ES Wind es el arquetipo de la librería en la interpretación Rimadesio: un sistema modular que combina ligereza estética e innovación tecnológica. El enfoque del proyecto, por completo en aluminio, es representado por la unión entre los estantes extruidos y los montantes en inyección, en versión central y terminal.

RU Wind – это прообраз книжного стеллажа в новой интерпретации Rimadesio: модульная система, сочетающая эстетическую легкость и технологические инновации. Центральный элемент конструкции, полностью выполненный из алюминия, – сочетание экструдированных полок и литьих стоек в центральной и боковых секциях.

汉语 Wind 为 Rimadesio 对书柜设计原型的重新演绎：它是一套将轻盈美学和技术创新相结合的模块化系统。其设计重点为全铝合金，由挤压工艺制成的层板和铝锭压铸成型的立柱组成，有中央型和末端型两种款式可选。

EN The vertical modularity of Wind is based on nylon fibre connection joints which are inserted into the uprights guaranteeing maximum stability. The six widths of the Wind bookcase (600, 800, 1000, 1200, 1400, 1600 mm) enable infinite modularity with a 200 mm module. The final element in each composition is the lacquered and laminated MDF top covered with a double sheet of aluminium, or the upper bracket in die-cast aluminium for the wall-mounted version. Wind becomes even more versatile with the upright for multiple heights, which enables the composition of double-height compartments even in the side columns, and an equipped TV compartment.

IT La componibilità verticale di Wind avviene tramite giunti di collegamento in nylon fibra che si innestano nei montanti e garantiscono la massima stabilità. Le sei larghezze della libreria Wind (600, 800, 1000, 1200, 1400, 1600 mm) permettono una componibilità infinita a modulo 200 mm. Elemento terminale di ogni composizione è il top laccato e stratificato in mdf rivestito da una doppia lastra di alluminio, oppure la staffa superiore in alluminio pressofuso per la versione a parete. Wind diventa ancora più versatile grazie ai montanti per altezze multiple, che permette la composizione di vani a doppia altezza anche nelle colonne laterali, e di un vano TV attrezzato.

DE Die vertikale Modularität von Wind wird durch Verbindungen aus Nylonfasern erreicht, die in die Pfosten eingreifen und maximale Stabilität garantieren. Die sechs Breiten des Bücherregals Wind (600, 800, 1000, 1200, 1400, 1600 mm) ermöglichen eine unbegrenzte Modularität mit 200-mm-Modulen. Das Abschlusselement jeder Komposition ist die lackierte und geschichtete MDF-Platte, die mit einem doppelten Aluminiumblech überzogen ist, oder die obere Halterung aus Aluminiumdruckguss für die wandmontierte Version. Wind wird noch vielseitiger dank der Multi-Height-Basis, die die Zusammenstellung von Fächern in doppelter Höhe auch in den Seitensäulen ermöglicht, und einem ausgerüsteten TV-Abteil.

FR Le secret de la grande modularité de Wind sont les joints de raccordement en fibre de nylon qui se fixent dans les montants et garantissent une stabilité maximale. Les six largeurs de la bibliothèque Wind (600, 800, 1000, 1200, 1400, 1600 mm) permettent une modularité infinie grâce aux modules de 200 mm. Chaque composition est finalisée par un plateau en MDF laqué et stratifié recouvert d'une double feuille d'aluminium, ou par le support supérieur en aluminium moulé sous pression pour la version murale. Wind devient encore plus polyvalente grâce au montant pour hauteurs multiples, qui permet de créer des compartiments à double hauteur, y compris sur les colonnes latérales, outre un compartiment TV équipé.

ES La modularidad vertical de Wind se logra mediante el uso de juntas de conexión de fibra de nailón, que se acoplan en los montantes y garantizan la máxima estabilidad. Las seis anchuras disponibles para la librería Wind (600, 800, 1000, 1200, 1400, 1600 mm) permiten una modularidad infinita en un módulo de 200 mm. El elemento final de cada composición es el top lacado y laminado en MDF revestido con una hoja doble de aluminio, o el soporte superior de aluminio fundido a presión para la versión a pared. Wind se vuelve aún más versátil gracias al montante para múltiples alturas, que permite la composición de compartimentos de doble altura incluso en las columnas laterales, y un compartimento TV equipado.

RU Вертикальная модульность Wind достигается благодаря нейлоновым волокнистым соединениям, которые входят в стойки и гарантируют максимальную устойчивость. Шесть вариантов ширин книжного шкафа Wind (600, 800, 1000, 1200, 1400, 1600 мм) допускают бесконечную модульность с шагом в 200 мм. Завершающий элемент каждой композиции – лакированый и многослойный верх из мдф, покрытый двойным алюминиевым листом, или верхний кронштейн из литого алюминия для настенной версии. Wind становится еще более универсальным с нишами двойной высоты или для телевизора, в том числе в крайних секциях.

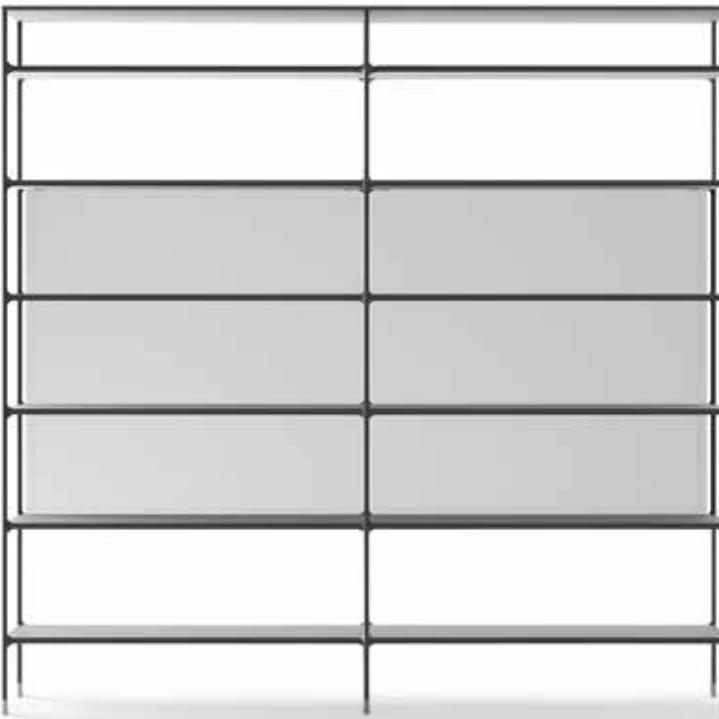

汉语 尼龙纤维制的连接件实现了Wind 书柜的垂直模块化，其在立柱中互相啮合并确保最大牢固度。Wind 书柜共有六种宽度可选 (600, 800, 1000, 1200, 1400, 1600 毫米)，在以 200 毫米为单元的情况下实现无限种模块组合。每种组合的末端组合件台面皆为烤漆处理，并以覆上双层铝板的 MDF 密度板进行层压；墙面的版本则为压铸铝合金制成的顶部托架。因多重高度的立柱，Wind 的用途得更加广泛，除了能够在侧柱内配置双倍高度的空间，亦能留出装设电视的空间。

STORAGE UNIT SYSTEMS

THE RIALTO COLLECTION INCLUDES FURNITURE WITH A STRONG PERSONAL AND RECOGNISABLE CHARACTER, ALWAYS IN LINE WITH THE RIMADESIO PHILOSOPHY OF DESIGNING AND MANUFACTURING PRODUCTS WITH AN ESSENTIAL AND CONTEMPORARY AESTHETIC LINE MEANT TO LAST.

IT La collezione Rialto racconta di arredi dal forte carattere personale e riconoscibile, sempre coerente con la filosofia Rimadesio di progettare e realizzare prodotti dalla linea estetica essenziale e contemporanea, destinati a durare nel tempo.

DE Die Rialto-Kollektion besteht aus Möbeln mit einer starken Persönlichkeit mit hohem Wiedererkennungswert, immer im Einklang mit der Rimadesio-Philosophie, Produkte mit einer essenziellen und zeitgemäßen ästhetischen Linie zu entwerfen und herzustellen, die für eine lange Lebensdauer bestimmt sind.

FR La collection Rialto réunit des meubles de caractère, immédiatement identifiables, toujours cohérents avec la philosophie Rimadesio: concevoir et réaliser des produits avec des lignes épurées, contemporaines et conçus pour durer dans le temps.

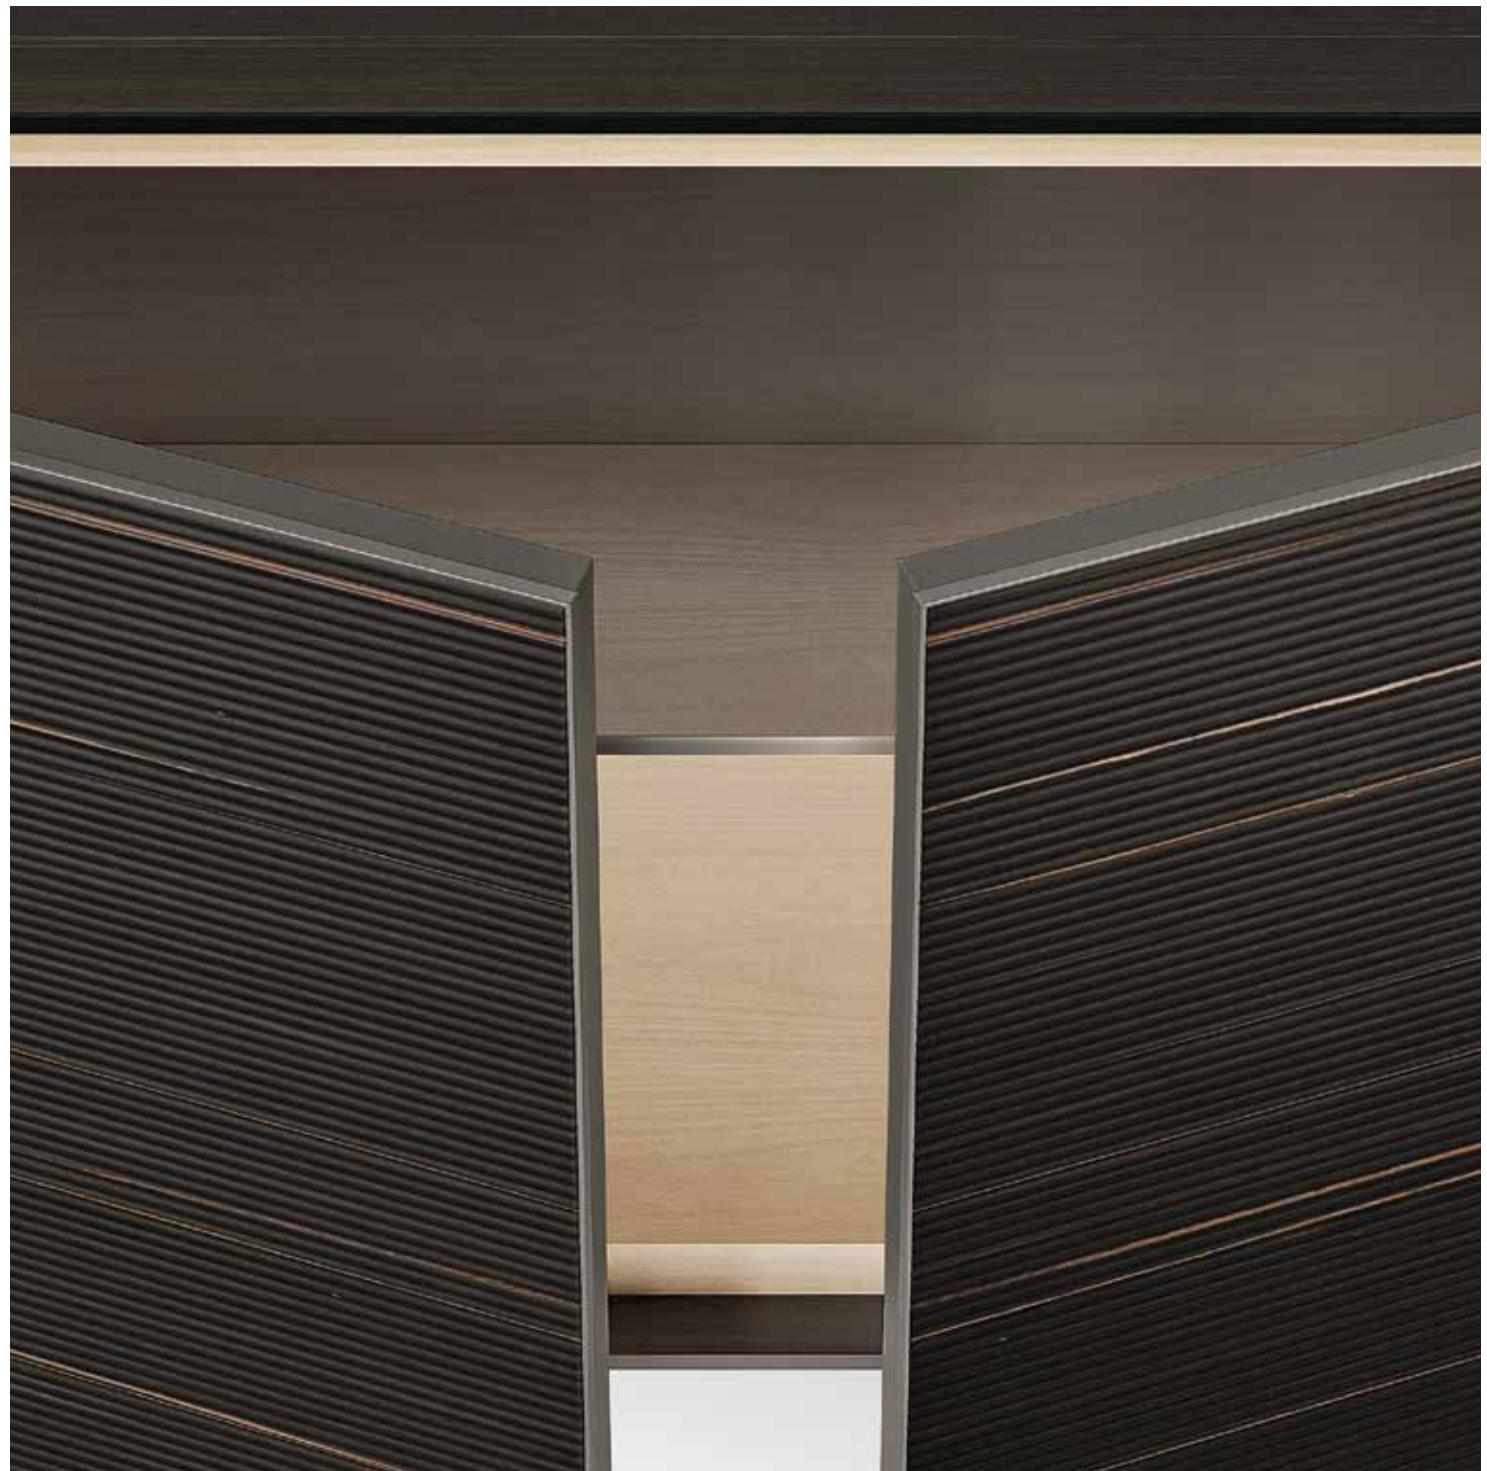

ES La colección Rialto se compone de muebles con un fuerte carácter personal y reconocible, siempre coherente con la filosofía de Rimadesio de diseñar y fabricar productos con una línea estética esencial y contemporánea, destinados a perdurar en el tiempo.

RU Коллекция Rialto – это мебель с ярко выраженным индивидуальным и узнаваемым характером, всегда соглашающаяся с философией Rimadesio по проектированию и производству продуктов с существенной и современной эстетикой, предназначенной для использования в течение долгого времени.

汉语 Rialto 系列家具十分具识别度且带有强烈个性，始终契合 Rimadesio 的品牌理念，产品的设计制作以基本现代的美学线条勾勒且经久耐用。

EN The Rialto collection is made of various elements characterised by a bridge structure in extruded, welded metal that suspends the central cabinets and the support top. The use of natural light wood for the cabinets in the sideboard, console and bar unit is a break with tradition, conferring prestige, elegance and quality, taking inspiration from the haute cabinetmaking techniques of the past.

IT La collezione Rialto è composta da diversi elementi caratterizzati da una struttura a ponte in metallo estruso e saldato che sospende i contenitori centrali e il top di appoggio. Inedito l'utilizzo del legno chiaro naturale per gli interni dei contenitori della madia, della consolle e del mobile bar, a conferire prestigio, eleganza e qualità prendendo ispirazione dalle tecniche di alta ebanisteria di un tempo.

DE Die Rialto-Kollektion besteht aus mehreren Elementen, die sich durch eine stranggepresste und geschweißtes Brück Struktur aus Metall auszeichnen, an der die zentralen Behältereinheiten und die Platte aufgehängt sind. Außergewöhnlich ist die Verwendung von natürlichem, hellem Holz für das Innere des Schranks, der Konsole und des Barschranks. Dies verleiht Prestige, Eleganz und Qualität, inspiriert von den Tischlertechniken vergangener Zeiten.

FR La collection Rialto comprend différents éléments, caractérisés par une structure en forme de pont en métal extrudé et soudé, d'où sont suspendus les rangements centraux et le plateau de support. L'utilisation inédite de bois clair naturel pour l'intérieur des éléments de rangement du bahut, de la console et du meuble bar, confère prestige, élégance et qualité, en s'inspirant des techniques de la haute ébénisterie d'autrefois.

ES La colección Rialto está compuesta por varios elementos, se caracteriza por una estructura puente, realizada en metal extrusionado y soldado, que suspende los contenedores centrales y el top de apoyo. El inusual empleo de madera clara natural para el interior del aparador, la consola y el mueble bar aporta prestigio, elegancia y calidad, y está inspirado en las técnicas de ebanistería de antaño.

RU Коллекция Rialto состоит из шести элементов линейка характеризуется мостовым элементом изготовленным из экструдированного и сварного алюминия, на котором подвешиваются центральные контейнеры и опорная верхняя часть. Необычным является использование натурального светлого дерева внутри тумбы, консоли и барного шкафа, что придает престиж, элегантность и качество, вдохновленные техникой краснодеревщиков прошлых лет.

汉语 Rialto 系列由多项组件构成，设计特色为挤出焊接金属的桥状组件，其可悬吊中央的收纳空间和支撑台面。餐边柜、长桌和酒吧柜的内部收纳空间采用新型天然浅色木材，带有尊贵典雅的气息与细腻的品质，灵感源自过往的高级雕刻镶嵌橱柜的制作工艺。

EN The drawer fronts of the Rialto console have an exclusive seamless aluminium perimeter edge made using a folding system, common to all the elements in the collection. The interiors are in light wood and the bases of the drawers are in synthetic leather, available in the 8 exclusive colours of the Rimadesio sample collection.

IT Il frontale dei cassetti della consolle Rialto ha un esclusivo profilo perimetrato in alluminio senza interruzione realizzato con lavorazione folding, comune a tutti gli elementi della collezione. Gli interni sono in legno chiaro e i fondi dei cassetti in similpelle, disponibile negli 8 esclusivi colori del campionario Rimadesio.

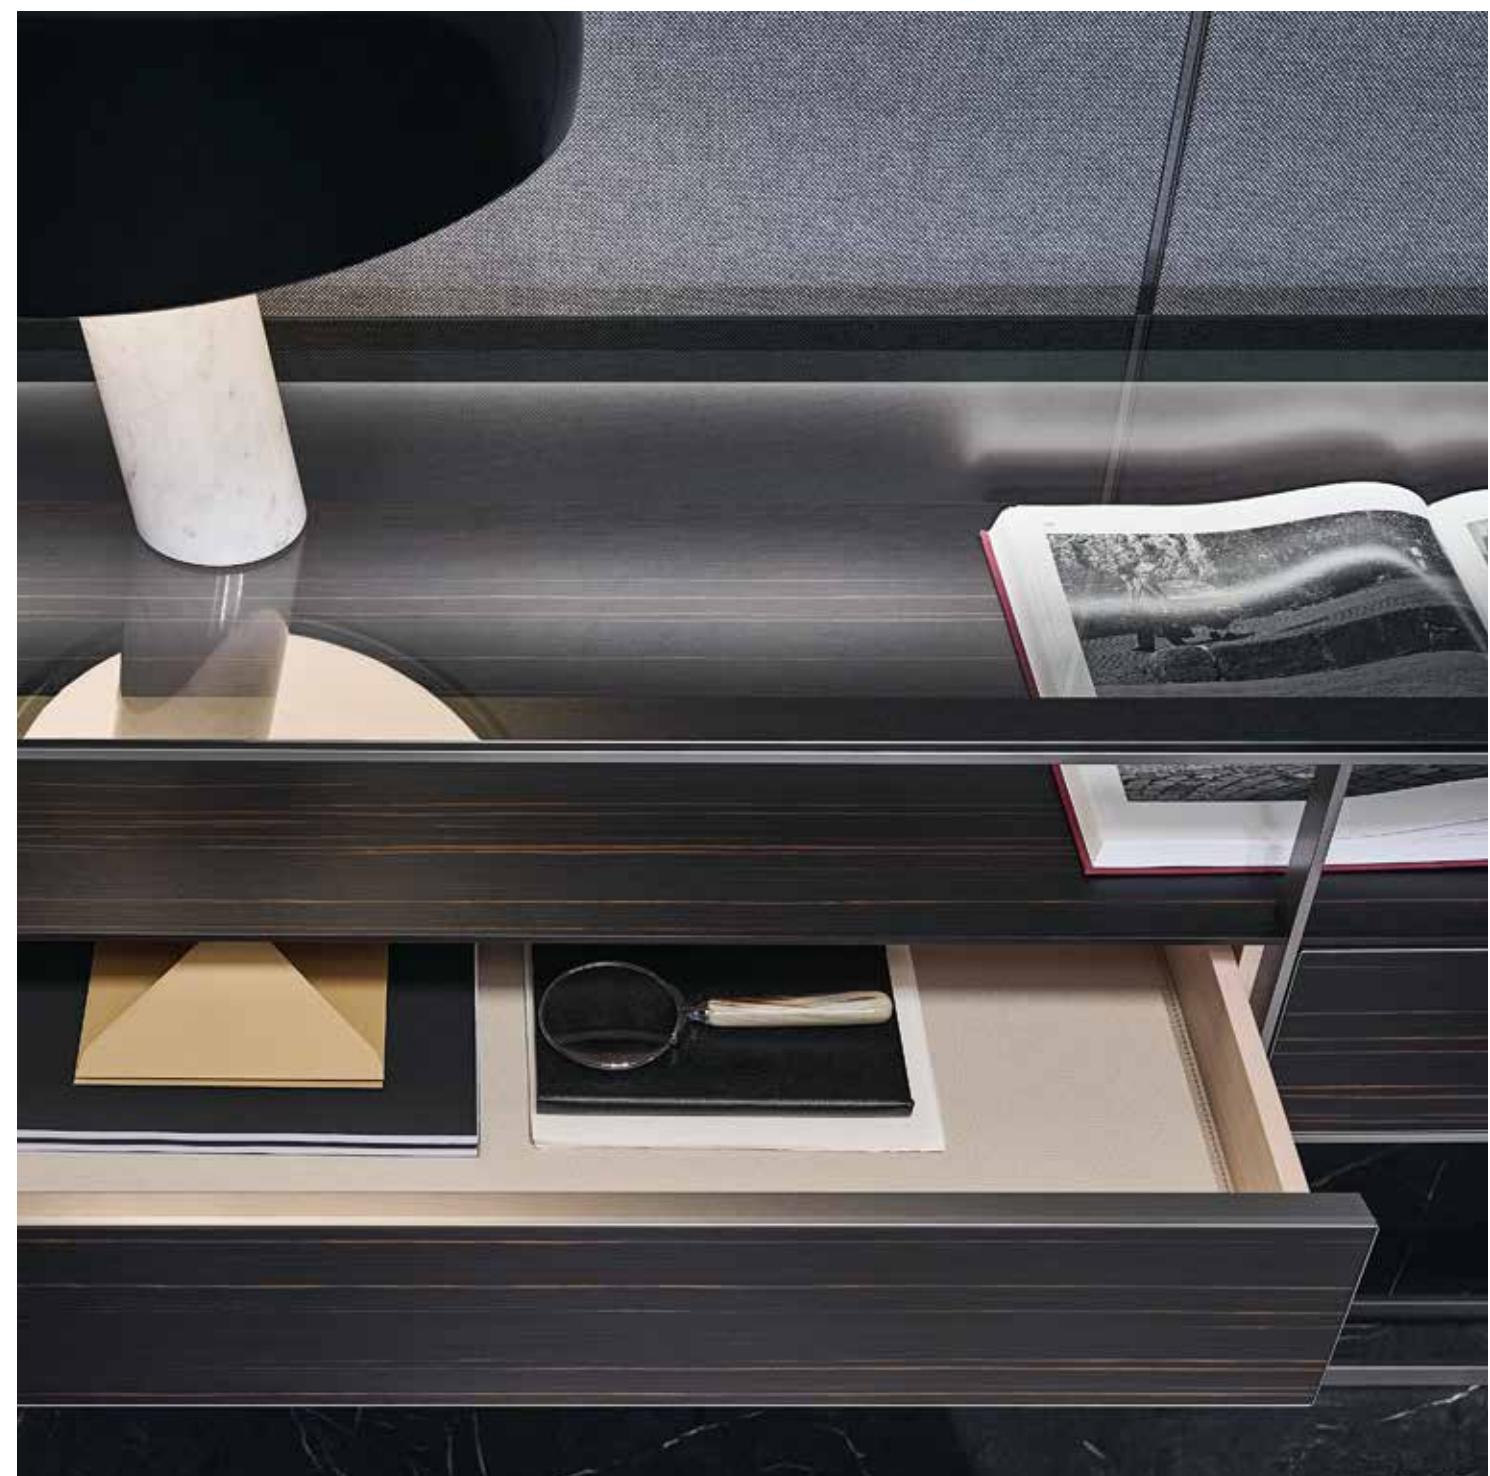

DE Die Schubladenfront der Rialto-Konsole hat ein einzigartiges, durchgehendes Aluminiumprofil, das mit einer Falztechnik hergestellt wird, die allen Elementen der Kollektion gemeinsam ist. Die Innenausstattung ist aus hellem Holz und die Schubladenböden sind mit Kunstleder bezogen, das in den 8 exklusiven Rimadesio-Musterfarben erhältlich ist.

FR La façade des tiroirs de la console Rialto présente un profil périmétrique exclusif en aluminium sans soudure, réalisé à travers un travail de pliage, commun à tous les éléments de la collection. L'intérieur est en bois clair et le fond des tiroirs en simili cuir, disponibles dans les 8 couleurs exclusives du collection Rimadesio.

ES El frente de los cajones de la consola Rialto cuenta con un exclusivo perfil perimetral continuo de aluminio, realizado con una elaboración plegable, común a todos los productos de la colección. Los interiores son de madera clara y los fondos de los cajones de símil cuero, disponibles en los ocho exclusivos colores del muestrario de Rimadesio.

RU Фасад ящика консоли Rialto согнутым по углам с помощью технологии «фolding» — общей для всех элементов коллекции. Внутренняя отделка выполнена из светлого дерева, а дно ящиков из искусственной кожи, доступной в 8 эксклюзивных цветах Rimadesio.

汉语 Rialto 系列长桌的抽屉正面以铝合金打造，通过折边工艺勾勒出特殊的连续边缘轮廓，该轮廓为本系列所有产品共有的设计特征。内部则由浅色木材打造，底部选用仿真皮革，在 Rimadesio 的样品集中共有 8 种独家颜色可供选择。

EN The Rialto bar unit features light wood interiors and a mirror back panel. The shelves and drawers can be in glass or synthetic leather in the 8 finishings available in the sample collection. Optional are the LED lighting systems with touch switch or integrated electrical power strip. The interior includes a glass shelf and a cabinet in natural light wood with a top covered in synthetic leather. The cabinet is composed of side shelves and three drawers with synthetic leather bases and handles, available in all the colours of the sample collection. The external LED lighting comes with a touch switch, while the interior is lit by a twin spotlight with motion sensor.

IT Rialto mobile bar presenta interni in legno chiaro e schienale a specchio. I ripiani e i cassetti possono essere in vetro o in similpelle nelle 8 finiture disponibili a campionario. Opzionali i sistemi di illuminazione a LED con accensione a sfioramento o la multipresa elettrica integrata. L'interno prevede un ripiano in vetro e un contenitore in legno chiaro naturale con top rivestito in similpelle. Il contenitore è composto da ripiani laterali e tre cassetti con fondo e maniglie in similpelle, disponibili in tutti i colori previsti in campionario. L'illuminazione esterna è a led con accensione a sfioramento, mentre l'interno è illuminato da un faretto a due ottiche con sensore di presenza.

DE Der Barschrank Rialto ist mit hellem Holz ausgestattet und hat eine verspiegelte Rückseite. Einlegeböden und Schubladen können aus Glas oder mit Kunstleder in den 8 im Musterbuch verfügbaren Ausführungen hergestellt werden. Optional erhältlich sind LED-Beleuchtungssysteme mit Touch-Einschaltung oder die integrierte Steckdosenleiste. Die Innenausstattung besteht aus einer Glasablage und einer Ablage aus hellem Naturholz mit einer kunstlederbezogenen Platte. Die Aufbewahrungseinheit umfasst seitliche Regale und drei Schubladen mit Kunstlederboden und Griffen, erhältlich in allen Farben der Musterkollektion. Als Außenbeleuchtung kommen LED-Lampen mit Touch-Einschaltung zum Einsatz, während der Innenraum von einem zweifach optischen Scheinwerfer mit Anwesenheitssensor beleuchtet wird.

FR Le meuble bar Rialto affiche un intérieur en bois clair et un fond réfléchissant. Les étagères et les tiroirs peuvent être réalisés en verre ou en similicuir, dans les 8 finitions disponibles dans la collection. En option: systèmes d'éclairage LED avec interrupteur tactile ou multiprise électrique intégrée. L'intérieur comprend une étagère en verre et un élément de rangement en bois clair naturel, avec plateau recouvert de similicuir. L'élément de rangement est composé de tablettes latérales et de trois tiroirs avec fond et poignées en similicuir, disponibles dans toutes les couleurs de la collection. L'éclairage extérieur LED est doté d'un interrupteur tactile, tandis que l'intérieur est éclairé par un spot à deux lentilles avec capteur de présence.

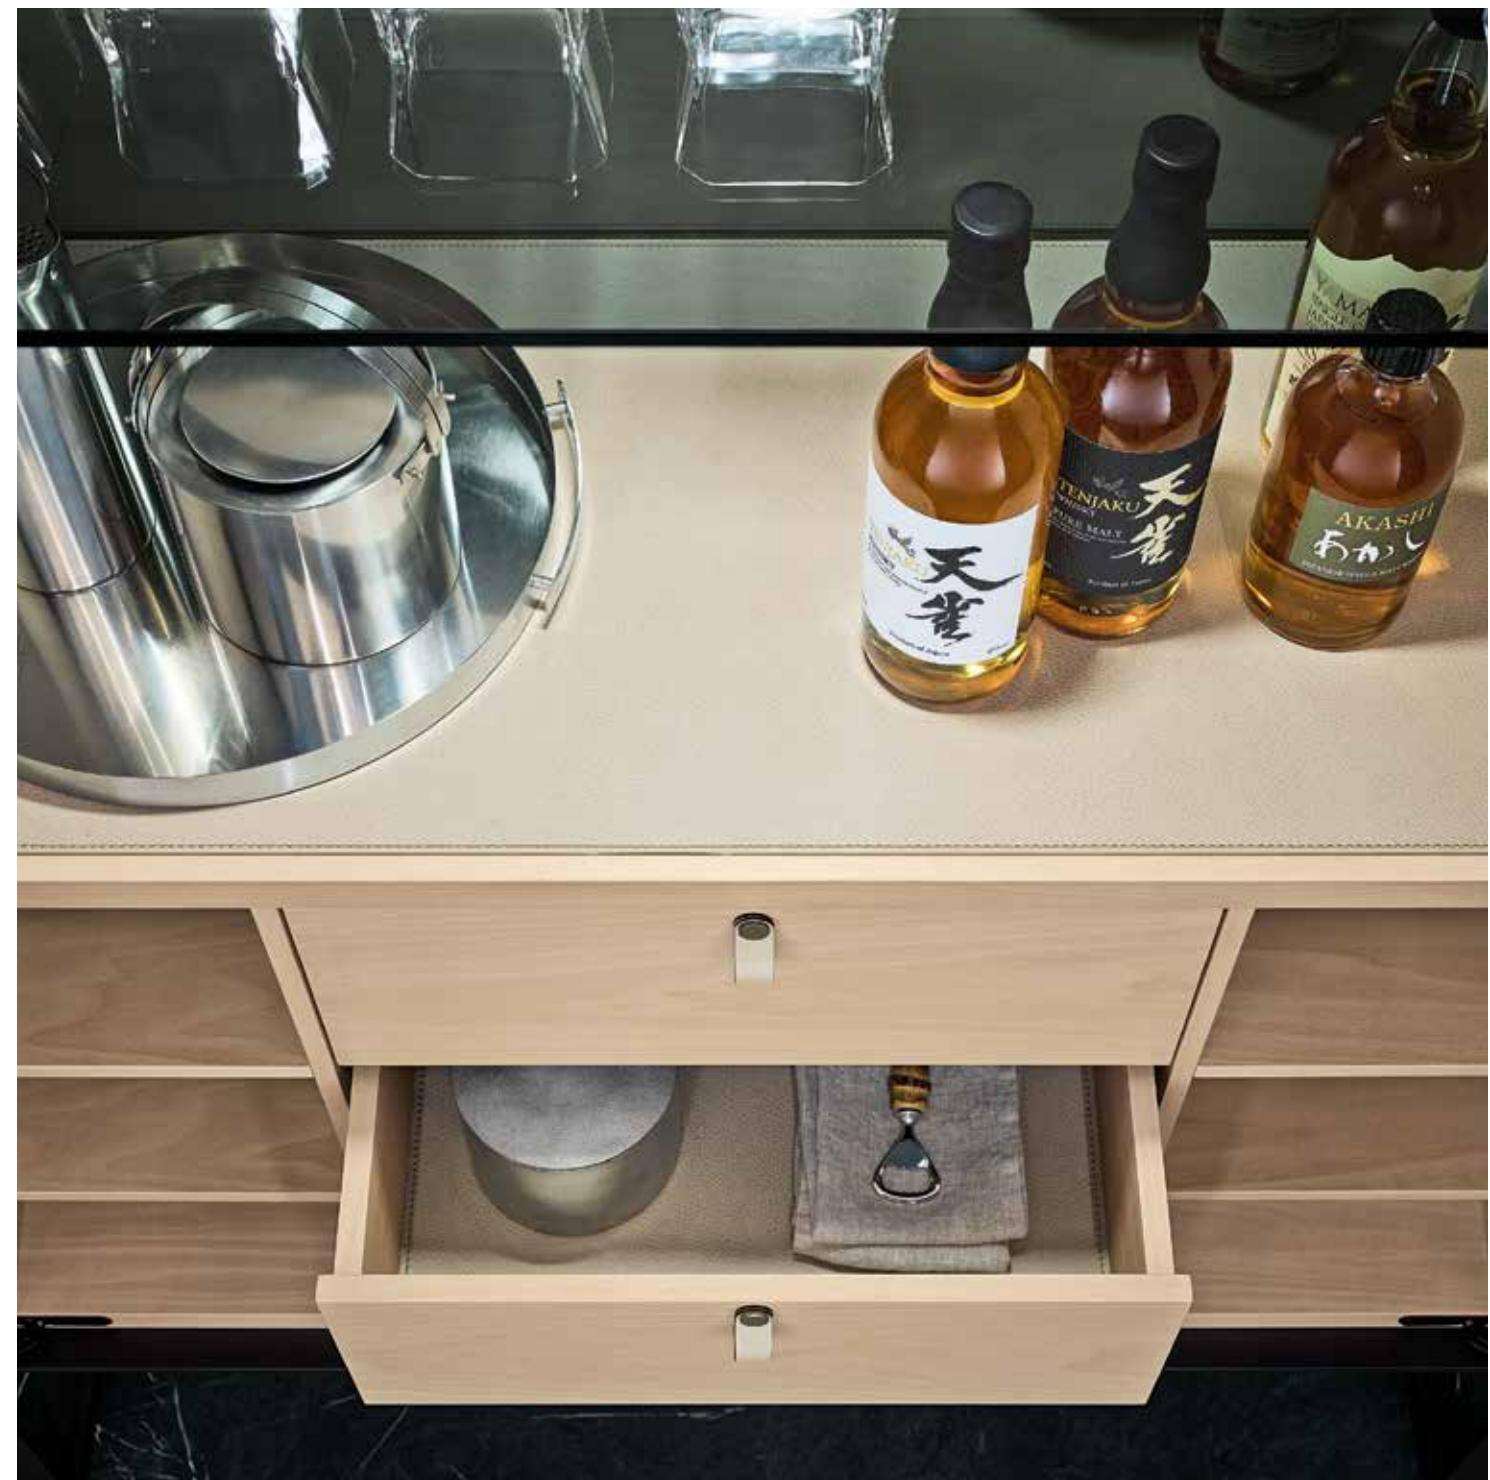

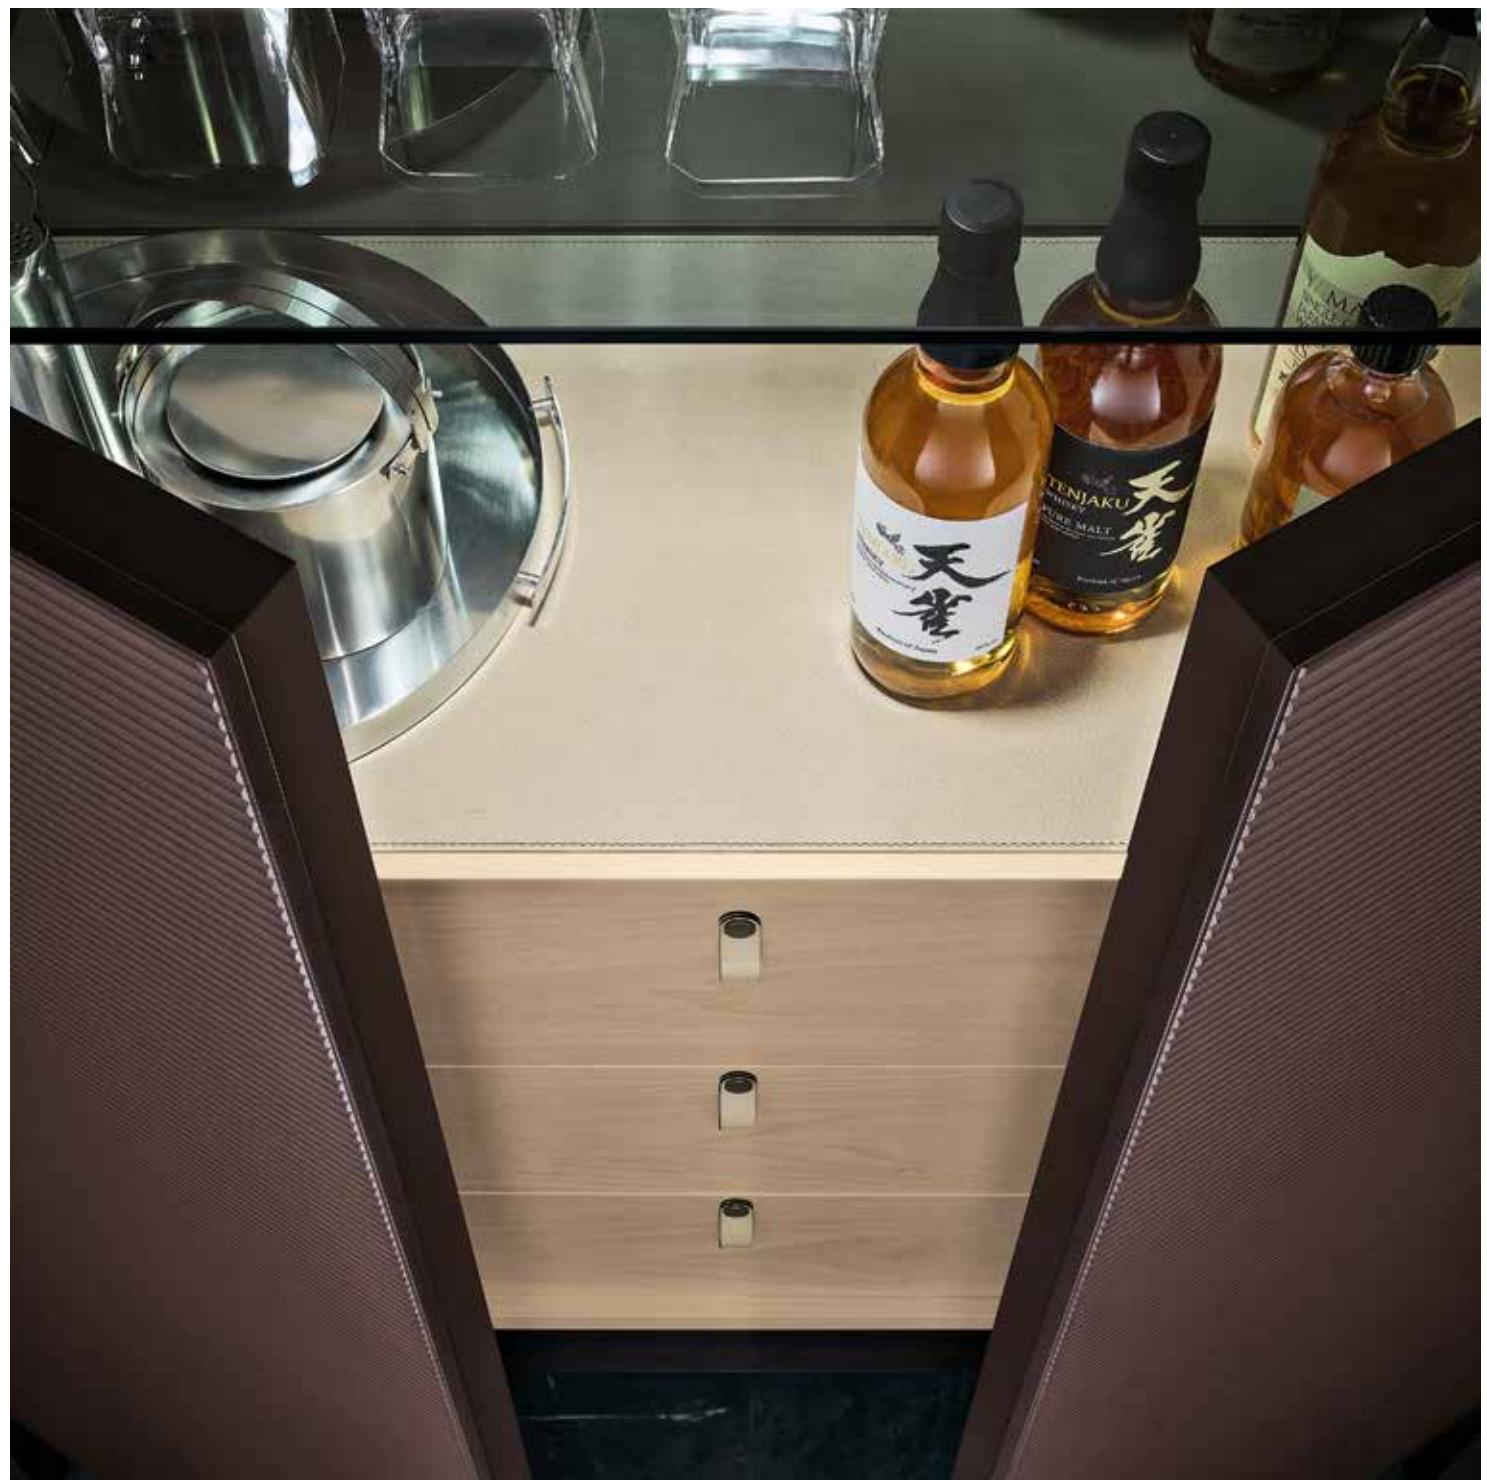

ES El mueble bar Rialto presenta un interior de madera clara y una parte trasera de espejo. Los estantes y cajones pueden ser de cristal o en simil cuero de los ocho acabados disponibles en el muestrario. De manera opcional, puede incluir sistemas de iluminación LED opcionales con interruptor táctil o regleta integrada. El interior incluye una balda de cristal y un contenedor de madera natural clara con tapa revestida en simil cuero. El contenedor se compone de baldas laterales y tres cajones con fondo y tiradores en simil cuero, disponibles en todos los colores incluidos en el muestrario. La iluminación exterior con LED cuenta con interruptor táctil, mientras que el interior está iluminado por un foco de dos ópticas con sensor de presencia.

RU Внутренняя отделка барного шкафа Rialto выполнена из светлого дерева, а задняя стенка – зеркальная. Полки и ящики могут быть выполнены из стекла или искусственной кожи в 8 вариантах отделки, представленных в книге образцов. В качестве опции предлагаются светодиодные светильники с сенсорным включением или Блок розеток. Внутри размещена стеклянная полка и Блок для хранения из натурального светлого дерева с верхней частью, обтянутой искусственной кожей. Отделение для хранения состоит из боковых полок и трех выдвижных ящиков с дном и ручками, выполненными из искусственной кожи, доступными во всех цветах из коллекции образцов. Внешнее освещение – светодиодное с сенсорным включением, а внутренняя часть освещается двумя оптическими точечными светильниками с датчиком присутствия.

汉语 Rialto 酒吧柜的内部以浅色木材打造并搭配镜面背板。层板和抽屉可采用玻璃或仿真皮革制作，样品集中有 8 种表面处理可供选择。亦可选配带轻触开关或集成电源插座的 LED 照明系统。内部为一块玻璃制层板和一件天然浅色木材打造的收纳空间，台面以仿真皮革包覆。该收纳空间由侧方层板和三个深抽屉组成，把手以仿真皮革包覆，在样品集中的所有颜色皆可供选择。外部照明为带轻触开关的 LED 灯，内部照明采用配有动作传感器的双聚光灯。

TECHNICAL DETAILS

1. Led lighting 3000° Kelvin (warm light) with touch system for switch on/off and light intensity adjustment.
2. Multiple socket integrated on bar unit internal top, with two electrical sockets available in different configurations. Closing flap matching the bar unit structure.
3. Adjustable spotlight with two lights with sensor.
4. Battery spotlight with motion sensor, colour of temperature 3000° Kelvin (warm light), Lithium Ion battery 3.7V, 2600 mAh, rechargeable by induction or micro USB cable.
5. Wall plug.

TECHNICAL DESCRIPTION

EN Rialto is a collection composed of back-finished free-standing furniture elements, characterised by external material finishings such as wood and glass in sahara and taiga and a complete range of glossy and matt lacquered glass. All the cabinets feature an indirect LED lighting system for the upper surface. The sideboard, console and the bar unit are characterised by the use of natural light wood for the interiors of the cabinets, while the sideboard and bar unit are fitted with a directional spotlight with motion sensor for internal lighting.

FR Rialto est une collection d'éléments d'ameublement autopartants, positionnables partout dans la pièce, caractérisés par des finitions extérieures texturées telles que les essences de bois et le verre sahara et taiga, et par une gamme complète de verres laqués brillants et mats. Tous les éléments de rangement peuvent être complétés par un système d'éclairage LED indirect pour le plateau supérieur. Les éléments de rangement du bahut, de la console et du meuble de bar sont en bois clair naturel, tandis que l'intérieur du bahut et du meuble de bar est équipé d'un spot directionnel avec capteur de présence.

IT Rialto è una collezione composta da elementi d'arredo freestanding retrofiniti, caratterizzati da materiche finiture esterne come le essenze e i vetri sahara e taiga e da una gamma completa di vetri laccati lucidi e opachi. Per tutti i contenitori è previsto un sistema di illuminazione led a luce indiretta per il top superiore. La madia, la consolle e il mobile bar sono caratterizzati dall'utilizzo del legno chiaro naturale per gli interni dei contenitori, mentre la madia e il mobile bar sono dotati internamente di un faretto direzionale con sensore di presenza per l'illuminazione interna.

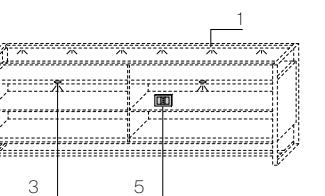

DE Rialto ist eine Kollektion aus aneinandergereihten, frei stehenden Möbel-Elementen mit strukturierten Oberflächen wie Sahara- und Taiga-Holz und -Glas sowie einer breiten Palette an glänzend und matt lackiertem Glas. Eine indirekte LED-Beleuchtung ist für alle Stauräume im oberen Bereich vorgesehen. Das Sideboard, die Konsol und der Barschrank zeichnen sich durch die Verwendung von natürlichem, hellem Holz für die Innenausstattung der Behälter aus, während das Sideboard und der Barschrank mit einem Richtstrahler mit Anwesenheitssensor für die Innenbeleuchtung ausgestattet sind.

RU Rialto – это коллекция, состоящая из отдельно стоящих элементов мебели, имеющих декоративно облицованную заднюю стенку, с фактурной внешней отделкой, такой как дерево и стекло sahara и taiga, а также полным спектром глянцевого и матового лакированного стекла. Для верхней части всех отделений для хранения предусмотрена непрямая светодиодная подсветка. Тумба, консоль и барный шкаф отличаются использованием натурального светлого дерева внутренней части отделений для хранения, в то же время тумба и барный шкаф оснащены направленным точечным светильником с датчиком присутствия для внутреннего освещения.

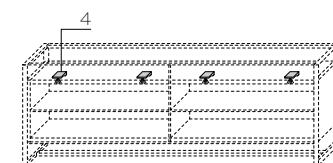

ES Rialto es una colección compuesta por elementos de decoración autopartantes con un aire retro, caracterizados por sus acabados exteriores en materiales como madera sahara y taiga, vidrio y una gama completa de vidrio lacado brillante y mate. Todos los contenedores de la parte superior disponen de un sistema de iluminación LED indirecta. El aparador, la consola y el mueble bar se caracterizan por el uso de madera clara natural para los interiores de los contenidores, mientras que el aparador y el mueble bar están equipados, en su interior, con un foco direccional con sensor de presencia para la iluminación interior.

汉 Rialto为一款背饰独立家具，意为可自由在空间内摆放而不需依靠墙面的设计；设计特色为木材、各式 Sahara 和 Taiga 玻璃以及广泛多样的亮面漆和哑光漆玻璃等外部材料。餐边柜、餐桌和酒吧柜的特色为采用天然浅色木材打造内部收纳空间，餐边柜和酒吧柜的内部照明为配有动作传感器的定向聚光灯。

WITH ALAMBRA, RIMADESIO GIVES A CONTEMPORARY REINTERPRETATION OF CLASSIC FURNITURE LIKE SIDEBOARDS, GLASS CABINETS AND DRAWER UNITS. A COLLECTION CHARACTERIZED BY THE PARTICULAR STRUCTURE IN ALUMINIUM, BY EXCLUSIVE DESIGN DETAILS, BY THE MECHANISMS OF MOVEMENT AND BY SHELVES EQUIPPED WITH INTEGRATED LED LIGHTING SYSTEM. A PROPOSAL AVAILABLE IN VARIOUS SIZES AND WITH DIFFERENT TECHNICAL INTERNAL EQUIPMENT.

IT Con Alambra, Rimadesio propone una reinterpretazione in chiave contemporanea di tipologie classiche dell'arredo come madie, vetrine e cassetiere. Una collezione caratterizzata dalla particolare struttura in alluminio, dal disegn esclusivo dei dettagli, dai meccanismi di movimento e dotata di illuminazione a led integrata nei ripiani. Una proposta articolata in varie dimensioni e dotata di attrezzature tecniche differenziate.

DE Mit Alambra bietet Rimadesio eine gemäße Neuinterpretation den klassischen Möbeltypen wie Sideboard, Vitrine und Schubladen Elementen an. Eine Kollektion von der besonderer Struktur aus Aluminium charakterisiert, exklusive Design-Detalls, Mechanismen der Bewegung und Led-Beleuchtung integriert bei Fachböden. Einer artikulierter Vorschlag in verschiedenen Massen und mit differenzierten technischen Ausrüstungen.

FR Avec Alambra, Rimadesio propose une réinterprétation contemporaine de meubles comme les bahuts, les vitrines et les blocs tiroirs. Une collection caractérisée par une particulière structure en aluminium, par des détails exclusifs de design, par mécanismes de mouvement et équipée de système d'éclairage à led intégré dans les étagères. Une proposition disponible en différentes dimensions et avec équipements différents.

ES Con Alambra, Rimadesio ofrece una reinterpretación contemporánea de tipologías clásicas de mobiliario como aparadores, vitrinas y cajoneras. Una colección que se caracteriza por la estructura particular en aluminio, de diseño exclusivo de los detalles, de los mecanismos de movimiento y dotada de iluminación por leds integrada en los estantes. Una propuesta que se articula en varios tamaños y con interiores diferentes.

RU Компания Rimadesio предлагает современное переосмысление классических типов мебели – шкафов, витрин и тумб – новой коллекции Alambra. Коллекция отличается особой алюминиевой конструкцией, эксклюзивным дизайном деталей, механизмами Открывания и светодиодной подсветкой, встроенной в полки. Коллекция представлена в различных размерах и с различным внутренним оснащением.

汉语 Rimadesio 通过 Alambra 掌握橱柜、展示柜和抽屉柜等经典家具的现代调性并重新诠释。系列特色为特殊的铝合金架构、独特的设计细节与多样的移动装置·LED 照明装置嵌入于层板之中。该产品系列提供多种尺寸并附有不同的技术配件。

Structure: 13 nero
Glass: 63 grigio trasparente
Internal: 19 rovere termotrattato
W 2616 H 1516 D 500

EN Available with or without crosspieces, entirely made in extruded aluminium, the project of the Alambra door is focusing the attention on details, typical of all the Rimadesio proposals. The precision of the opening movement, the innovation introduced by the closing system with neodymium magnets, the absence of visible screws, joints and plastic gaskets are the results of an exclusive technical research.

IT Disponibile con o senza traversini, interamente realizzata in alluminio estruso, l'anta di Alambra è un progetto in cui si concentra l'attenzione al dettaglio tipica della proposta Rimadesio. La precisione del movimento di apertura, l'innovazione introdotta dal sistema di chiusura con magneti al neodimio, la totale assenza di viti, giunzioni e guarnizioni in plastica sono il risultato di una ricerca tecnica esclusiva.

DE Die Tuer von Alambra aus extrudiertem Aluminum ist mit oder ohne Sprossen erhaeltlich. Rimadesio konzentriert sich auch auf Details. Die Genauigkeit der Oeffnung der Tuer, die Innovation der Schliessung mit Magneten in Neodym, keine Sichtschrauben und Verbindungsteile aus Kunststoff sind das Ergebnis der exklusiven technischen Forschung die her bei Firma Rimadesio gemacht wurde.

FR La porte de Alambra, disponible avec ou sans traverses, entièrement en aluminium extrudé, est un projet dédié à l'attention du détail, caractéristique commune à toutes les propositions Rimadesio. La précision du mouvement d'ouverture, la nouveauté introduite par le système de fermeture avec des aimants de néodyme, l'absence totale de vis et joints en plastique, même à son intérieur, sont également le résultat d'une recherche technique très exclusive.

ES Disponible con o sin travesaños, hecha enteramente en aluminio extruido, la puerta de Alambra es un proyecto en que se centra la atención al detalle típica de la propuesta Rimadesio. La precisión del movimiento de apertura, la innovación introducida por el sistema de cierre con imanes de neodimio, la total ausencia de tornillos, juntas y gomas también en el interior son el resultado de una búsqueda técnica exclusiva.

RU Дверь Alambra, изготовленная полностью из экструдированного алюминия, доступна с поперечными перемычками или без них, — это дизайн, в котором максимально сконцентрировано внимание к деталям, характерное для Rimadesio. Точность механизма открывания, инновационная система запирания с неодимовыми магнитами, полное отсутствие винтов, соединений и пластиковых уплотнителей — все это результат эксклюзивных технических исследований.

汉语 Alambra 的门扇以全挤出铝合金制成,带横挡或不带横挡皆可;在这其中 Rimadesio 倾注了对设计细节一贯的重视。开启门扇的精确运动搭配新引进的钕磁铁闭合系统,完全舍弃螺钉、连接件和塑料垫圈,上述皆为独家技术的研究成果。

TECHNICAL DESCRIPTION

EN Alambra is a double-sided system in aluminium and glass with top, cabinets and base in wood available in three varieties: noce, rovere termotrattato and rovere nero. Alternatively, the top can be made of transparent glass. The structure is available in brown, nero, platino and bronzo aluminium. The doors, sides, back panels and shelves are made of tempered glass.

FR Alambra est un système double face en aluminium et verre avec plateau, éléments de rangement et base en bois, disponible en trois essences: noce, rovere termotrattato et rovere nero. Le dessus peut aussi être réalisé en verre transparent. La structure est disponible en aluminium brown, nero, platino et bronzo. Les portes, côtés, fonds et étagères sont en verre trempé.

ES Alambra es un sistema a doble cara de aluminio y vidrio con top, contenedores y base de madera disponible en tres maderas: noce, rovere termoestimado y rovere nero.

El top también puede ser de cristal transparente.

La estructura está disponible en aluminio brown, nero, platino y bronzo. Ante, spalle, schienali e ripiani

sono realizzati in vetro templato.

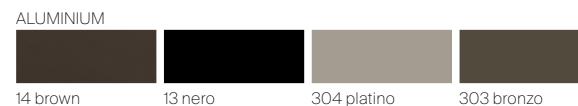

DE Alambra ist ein beidseitiges System aus Aluminium und Glas mit einer Holzplatte, Behältern und einem Sockel, der in drei Holzarten erhältlich ist: Noce, Rovere Termotratato und Rovere Nero. Die Oberseite ist alternativ aus transparentem Glas gefertigt. Das Gestell ist in Brown, Nero, Platino und Bronzo Aluminium erhältlich. Türblätter, Rückwände und Einlegeböden sind aus gehärtetem Glas gefertigt.

RU Alambra – это двусторонняя система из алюминия и стекла с деревянной столешницей, ящиками для хранения и цоколем из трех пород дерева: ореха, черного дуба и термообработанного дуба. В качестве альтернативы верхняя часть может быть выполнена из прозрачного стекла. Конструкция доступна из алюминия коричневого, черного, платинового и бронзового цвета. Дверцы, стекловые панели и полки выполнены из закаленного стекла.

汉语 Alambra 是一款采用铝合金和玻璃材质打造的双面设计系统，其包含台面、收纳空间和以木材打造的底座，有三种木材可供选择：胡桃木、黑橡木和热处理橡木。台面亦能以透明玻璃制作。柜体材质有棕、黑、铂金和黄铜色的铝合金可供选择。门片、侧板、背板和层板采用钢化玻璃打造。

ABACUS LIVING IS A NEW CONCEPT IN THE DAY SYSTEM. THE DESIGN CONSISTS OF A LACQUERED GLASS BOISERIE, A PURE SURFACE LIVING WITH LIGHT AND REFLECTIONS, ON WHICH CABINETS WITH DRAWERS IN GLASS, WOOD OR LITECH ARE PROVIDED, BUT ALSO SLIDING DOORS IN LACQUERED OR TRANSPARENT GLASS AND ULTRA-SLIM SHELVES. THE BACK PANELS ARE PROVIDED WITH UPPER AND LOWER LED LIGHTING SYSTEM.

IT Abacus living è una nuova concezione del sistema giorno. Il progetto si compone di una boiserie di vetro laccato, superficie pura che vive di luce e riflessi, sulla quale si innestano contenitori con cassetti in vetro, in essenza o in Litech, ma anche ante scorrevoli in vetro laccato o trasparente e mensole di sottilissimo spessore. Gli schienali sono dotati di un sistema di illuminazione a led nella parte superiore e inferiore.

DE Abacus living ist ein neues Konzept eines Wohnsystems. Das Design besteht aus einer Verfälselung aus lackiertem Glas, einer puristischen Oberfläche, die von Licht und Reflexionen lebt, und auf der Behälter mit Schubladen aus Glas, Holz oder Litech sowie Schiebetüren aus lackiertem oder transparentem Glas und sehr dünne Einlegeböden montiert sind. Die Rückenteile sind oben und unten mit einem LED-Beleuchtungssystem ausgestattet.

FR Abacus living est une nouvelle vision de l'espace jour. Ce projet se compose de boiseries en verre laqué, surface pure qui laisse libre cours aux jeux de lumière et de reflets, sur laquelle sont insérés des éléments de rangement avec tiroirs en verre, essences de bois ou Litech, mais aussi des portes coulissantes en verre laqué ou transparent et des étagères ultra-fines. Le fond est équipé d'un système d'éclairage LED en partie haute et basse.

ES Abacus living es una nueva concepción del sistema de día. El proyecto consta de un revestimiento de vidrio lacado, una superficie pura que se nutre de la luz y los reflejos, sobre la que se acoplan los contenedores con cajones de vidrio, madera o Litech, así como puertas correderas de vidrio lacado o transparente y estantes muy finos. Las partes traseras están equipadas con un sistema de iluminación LED en las partes superior e inferior.

RU Abacus living – это новая концепция системы для гостиной. Конструкция состоит из буазери из вертикальной стеклянной панели, чистой поверхности, подчеркиваемой игрой света и отражений, на которую крепятся контейнеры с ящиками из стекла, дерева или Litech, а также раздвижных дверей из лакированного или прозрачного стекла и очень тонких полок. Стеновые панели сверху и снизу имеют светодиодную подсветку.

汉语 Abacus Living 为日间系统的一个新式概念。该设计由一片漆面玻璃的护壁板构成，洁净的表面透出光线反射，在其之上可嵌入玻璃、木材或 Litech 材质制的收纳抽屉，亦能安装烤漆或透明玻璃制的滑动移门以及极为纤薄的层板。背板的顶部和底部配置 LED 照明系统。

Structure: 83 piombo

Suspended cabinets: 19 rovere termotrattato
W 6404 H 1989 D 655

EN The project concept defining the sliding doors of Abacus living is based on a sliding system integrated into the shelves, completed by a series of glass side panels fixed on the shelves, thus closing the unit. The sliding door is available in transparent, reflective, glossy or matt lacquered glass.

IT Il concept progettuale che definisce le ante scorrevoli Abacus living si basa su un sistema di scorrimento che si integra perfettamente con i ripiani, completato da una serie di spalle laterali in vetro che si inseriscono fra un ripiano e l'altro, chiudendo il vano. L'anta scorrevole in vetro è prevista in versione trasparente, riflettente oppure laccata lucida o opaca.

DE Das Designkonzept, das die Schiebetüren von Abacus living auszeichnet, basiert auf einem Schiebesystem, das sich perfekt in die Regalböden einfügt. Ergänzt wird es durch eine Reihe von gläsernen Seitenwangen, die sich zwischen die einzelnen Regalböden schieben und so das Fach schließen. Die Glasschiebetür ist in transparenter, verspiegelter oder glänzend bzw. matt lackierter Ausführung erhältlich.

FR Le concept du projet qui définit les portes coulissantes du système Abacus living se base sur un mécanisme de glissement parfaitement intégré dans les étagères, complété par une série des panneaux latérales en verre fixés entre les deux étagères, en créant un espace. La porte coulissante en verre est disponible en version transparente, réfléchissante ou laquée brillante ou mate.

ES El concept de proyecto que define las puertas correderas de Abacus living se basa en un sistema de deslizamiento que se integra perfectamente con los estantes, completado por una serie de paneles laterales en cristal que se intercalan entre un estante y otro, cerrando el compartimento. La puerta corredera en cristal se proporciona en cristal transparente, reflectante o lacado brillante o mate.

RU Концепция дизайна, лежащая в основе раздвижных дверей Abacus living, основана на раздвижной системе, которая идеально интегрируется с полками, дополненными рядом стеклянных перегородок, размещаемых между одной полкой и другой, формируя отдельные секции. Раздвижные стеклянные двери предлагаются в прозрачном, отражающем, глянцевом или матовом лакированном исполнении.

汉语 Abacus Living 滑动移门的设计理念在于滑动系统与层板之间的完美契合，该滑动系统中以多片的玻璃侧板组成并被安装在每片层板之间，用于闭合内部空间。玻璃滑动移门有透明、具反射效果、亮面漆或哑光漆面可供选择。

TECHNICAL DESCRIPTION

EN The Rimadesio's attention to detail in the contemporary living area is confirmed in the Abacus Living system. The finishing top D 600 is equipped with a dustproof profile; the cable duct is fitted with electrical sockets and TV aerials in order to connect the television to multimedia devices without visible cables. The warm 3000°K LED light is integrated into the upper and lower part of the wall panels.

IT L'attenzione di Rimadesio per i dettagli della zona giorno contemporanea trova conferma nel sistema Abacus living. Il top di finitura P 600 è dotato di profilo antipolvere; la canalina è munita di prese elettriche e antenna tv per consentire di collegare la televisione con dispositivi multimediali senza cavi a vista. La luce led calda a 3000°K è integrata a scomparsa nella parte superiore e inferiore dei pannelli a parete.

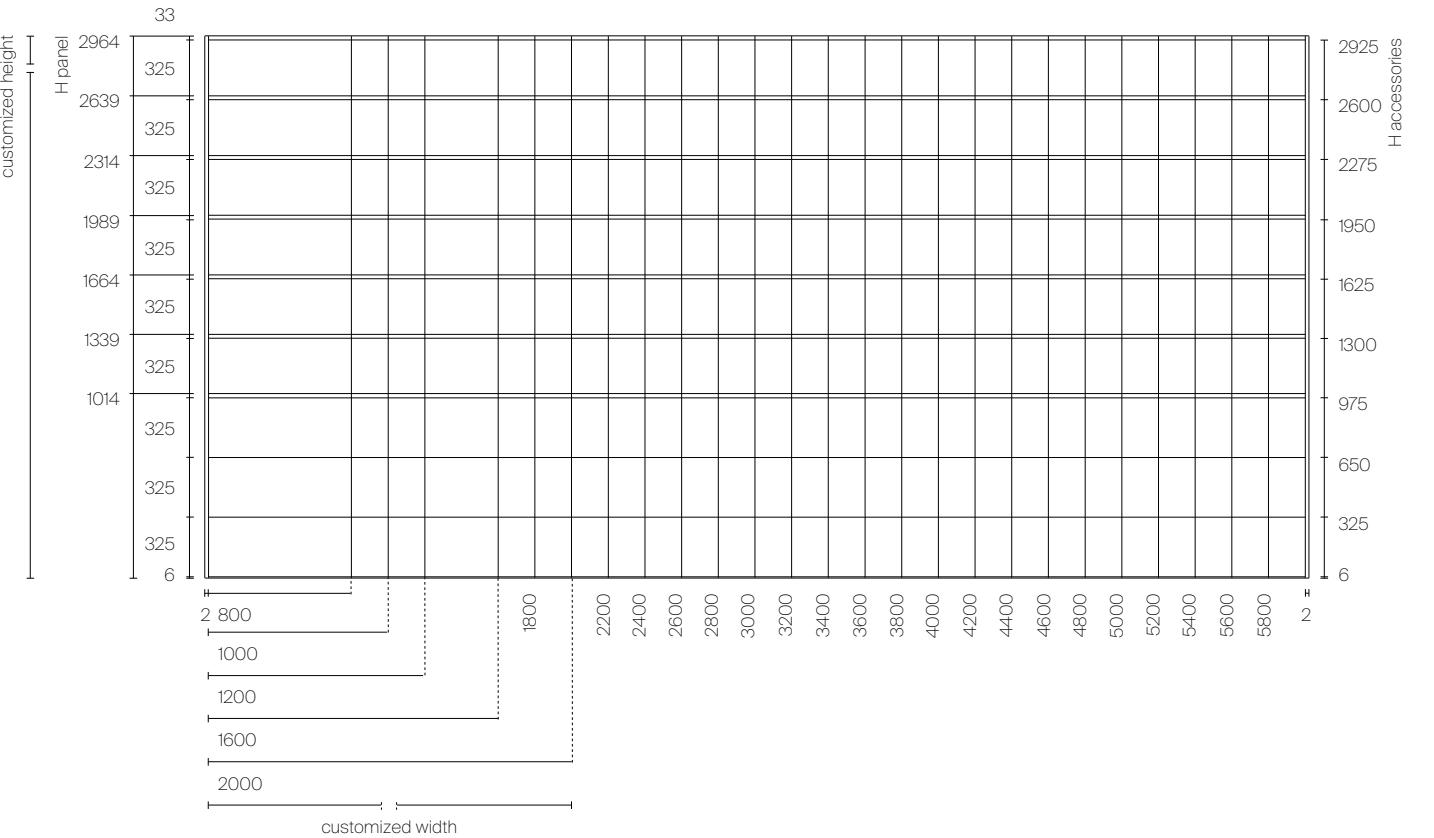

DE Rimadesios Liebe zum Detail im modernen Wohnbereich wird im Abacus-Wohnsystem fortgesetzt. Die Oberfläche des P 600 ist mit einem staubdichten Profil versehen; der Kabelkanal ist mit Steckdosen und einer TV-Antenne ausgestattet, damit Fernseh- und Multimediageräte ohne sichtbare Kabel angeschlossen werden können. Das warme LED-Licht mit 3000 K ist verdeckt in die Ober- und Unterseite der Wandpaneele integriert.

FR Le système Abacus living symbolise l'attention portée par Rimadesio aux détails d'un espace de vie contemporain. Le plateau de finition P 600 est doté d'un profil anti-poussière; les rainures sont dotées de prises électriques et d'une antenne TV pour pouvoir raccorder le téléviseur à des appareils multimédia, sans câbles apparents. L'éclairage LED chaud de 3000°K est intégré en partie haute et basse des panneaux muraux.

ES La atención de Rimadesio a los detalles de la sala de estar contemporánea queda confirmada en el sistema Abacus living. El top de acabado P 600 dispone de un perfil antipolvó; el conducto está equipado con tomas de corriente y antena de televisión para poder conectar la televisión con dispositivos multimedia sin cables visibles. La cálida luz LED de 3000°K está integrada de forma oculta en las partes superior e inferior de los paneles de pared.

RU Внимание Rimadesio к деталям в современном жилом пространстве нашло свое подтверждение в системе Abacus living. Столешница глубиной 600 мм оснащена вырезом с пылезащитой для проводов, кабельный канал оборудован электрическими розетками и штекером для ТВ-антенны, что позволяет подключать телевизор и мультимедийные устройства при скрытых кабелях. Теплый светодиодный свет 3000°K замаскирован в верхней и нижней части стеклянных панелей.

汉语 Rimadesio 对当代日间空间细节的重视可从 Abacus Living 系统得到印证。P 600 表面处理的台面具备防尘特点；装设电源插座和电视天线的电缆管可以收纳电线避免外露，同时电视能与多媒体设备相连接。3000K 的 LED 暖光灯集成在墙板顶部和底部空间内。

TECHNICAL DESCRIPTION

EN The modularity of the Abacus living system is based on wall fixed panels in lacquered glass available in 5 widths and 7 heights. The panel, the shelf and the floor bench are available in 5 different widths, with the possibility to reduce them on size.

FR La modularité du système Abacus living est basée sur des panneaux au mur en verre laqué disponibles en 5 largeurs et 7 hauteurs. Le panneau, l'étagère et la base au sol sont disponibles en 5 largeurs, avec la possibilité de réduction sur mesure.

RU Модульность системы Abacus living обеспечивается пятью размерами стеновых панелей по ширине и семью по высоте. Панели, полки и основания доступны в 5 размерах по ширине с возможностью урезки.

QUALITY AS THE MAIN PURPOSE, ALWAYS AND IN EVERY ASPECT. WITH THIS MISSION RIMADESIO IS CONSTANTLY SEARCHING FOR SOLUTIONS TO IMPROVE ITS OWN ECOLOGICAL STANDARDS.

OBJECTIVE OBTAINED THANKS TO THE USE OF PRECIOUS AND RECYCLABLE MATERIALS, TO THE ABSENCE OF SUBSTANCES THAT CAN BE TOXIC TO HUMANS OR HARMFUL TO THE ENVIRONMENT IN EVERY PHASE OF THE PRODUCTIVE PROCESS, TO THE USE OF TECHNOLOGY AND EVOLVED MACHINERY, POWERED BY CLEAN ENERGY DERIVED FROM PHOTOVOLTAIC SYSTEMS, INSTALLED ON THE GIUSSANO HEADQUARTERS ROOF.

ALUMINIUM, GLASS, WOOD: FULLY RECYCLABLE AND PARTLY ALREADY RECYCLED MATERIALS.

PROOFS OF A REINFORCED GREEN DNA AND WIDE COHERENCE, SIGNALS OF A CONTINUOUS RESEARCH AND A GLANCE TOWARDS THE FUTURE, THAT TAKES SHAPE IN THE TECHNOLOGICAL INNOVATION OF SYSTEMS, DOORS AND FURNITURE, MADE WITH THE AWARENESS OF WANTING TO ENTRUST HUMANS ONLY WITH HIGH VALUE-ADDED ACTIVITIES.

EXCELLENCE SUSTAINABILITY PROJECT

IT Perseguire la qualità, sempre, sotto tutti gli aspetti. Con questa missione Rimadesio ricerca costantemente soluzioni volte a migliorare i propri standard qualitativi ecologici. Obiettivo ottenuto sinergicamente, grazie all'utilizzo di materiali preziosi e riciclabili, all'assenza di sostanze tossiche per l'uomo e nocive per l'ambiente in ogni fase del processo produttivo, all'impiego di tecnologie e macchinari evoluti alimentati con energia pulita proveniente da impianti fotovoltaici, installati sulla copertura dell'headquarter di Giussano. Alluminio, vetro, legno, materiali totalmente riciclabili e in parte già riciclati, ma anche le vernici prive di solventi di Ecolorsistem e i sistemi di imballaggio ecologici. Testimonianze di un dna green consolidato e di una coerenza trasversale, segnali di una continua attività di ricerca e di uno sguardo sempre proteso al futuro che si declina nell'innovazione tecnologica di sistemi, porte ed arredi, realizzati con la consapevolezza di voler affidare all'uomo solo attività dall'alto valore aggiunto.

DE Stets um Qualität bemüht, und zwar in allen Bereichen. Mit dieser Mission im Blick sucht Rimadesio laufend nach Lösungen, um seine ökologischen Qualitätsstandards zu verbessern. Dieses Ziel wurde dank der Verwendung wertvoller und wiederverwertbarer Materialien, dem Verzicht auf für den Menschen giftige und umweltschädliche Stoffe in jeder Phase des Produktionsprozesses und dem Einsatz fortschrittlicher Technologien und Maschinen, die mit sauberer Energie aus den auf dem Dach des Giussano-Hauptsitzes installierten Photovoltaikanlagen betrieben werden, synergisch erreicht. Aluminium, Glas, Holz, vollständig recycelbare und teilweise bereits recycelte Materialien, aber auch die lösungsmittelfreien Farben von Ecolorsistem und umweltfreundliche Verpackungssysteme. Ein Zeugnis einer fundierten grünen DNA und einer transversalen Kohärenz, Zeichen einer kontinuierlichen Forschungstätigkeit und eines stets in die Zukunft gerichteten Blicks, der sich in der technologischen Innovation von Systemen, Türen und Einrichtungsgegenständen ausdrückt, die in dem Bewusstsein realisiert werden, den Menschen nur Tätigkeiten mit hohem Mehrwert anzuvertrauen.

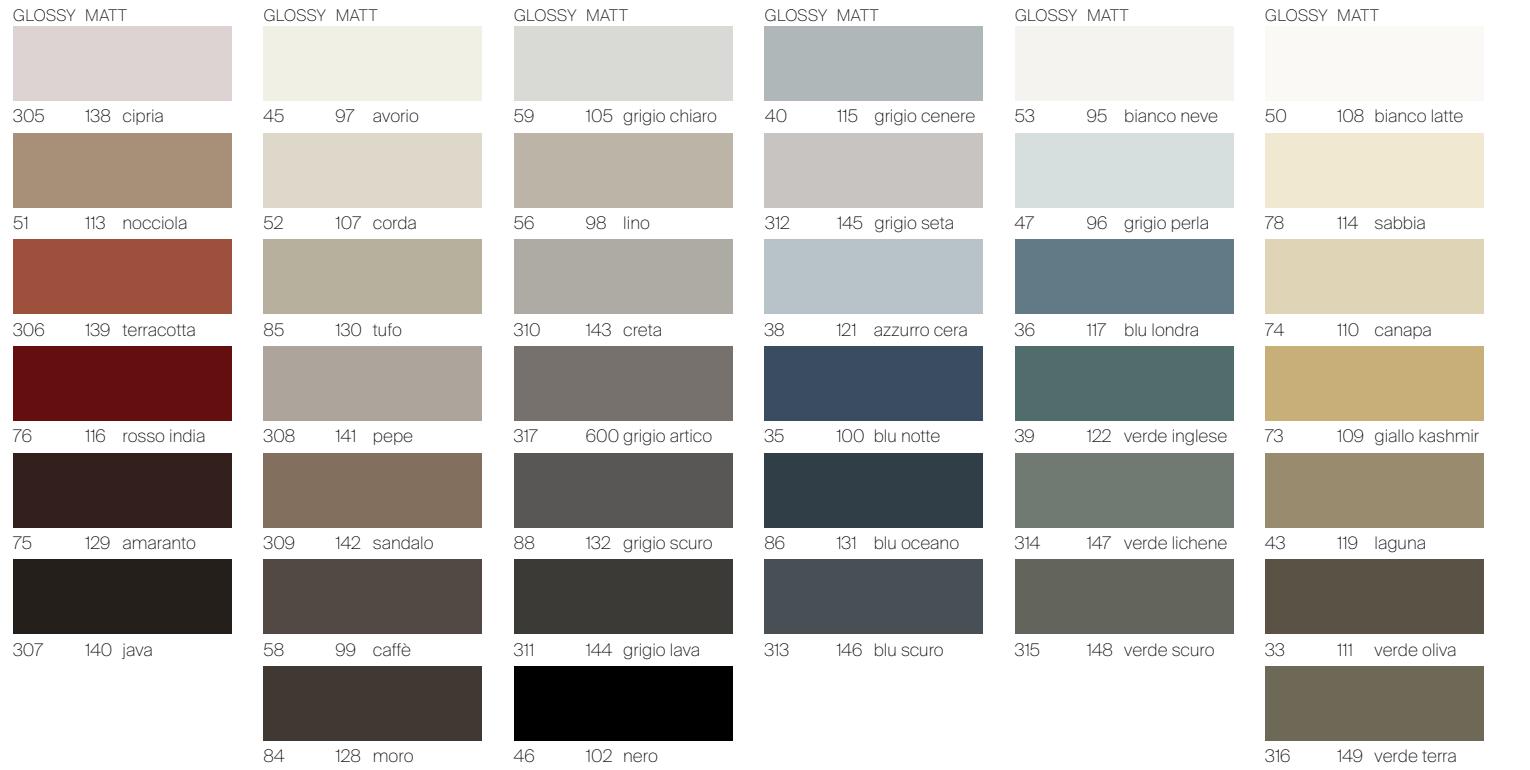

FR Poursuivre la qualité, toujours, et à tous les égards. Avec cette mission Rimadesio recherche constamment de solutions au fin d'améliorer ses normes de qualité écologique. Objectif atteint, grâce à l'utilisation de matériaux précieux et recyclables, l'absence à chaque étape de la production de substances toxiques nocives pour l'homme et l'environnement, l'utilisation de technologies et des machines avancées alimentées par l'énergie solaire après l'installation sur le toit de l'usine à Giussano de systèmes photovoltaïques. Aluminium, verre, bois, des matériaux entièrement recyclables et déjà en partie recyclés, mais aussi peinture Ecolorsistem sans solvants et systèmes d'emballage respectueux de l'environnement. Témoignages d'un adn "vert" consolidé et d'une cohérence transversale, signes de recherche continue et d'une tendance à regarder en avant, qui correspond bien à l'innovation technologique des systèmes, des portes et des meubles, réalisés avec la conscience que l'apport de l'homme dans la production ne peut qu'avoir une valeur ajoutée.

ES Perseguir la calidad, siempre, en todos los aspectos. Con esta misión Rimadesio busca constantemente soluciones destinadas a mejorar sus estándares de calidad ecológica. Objetivo conseguido sinéricamente, gracias al uso de materiales preciosos y reciclables, a la ausencia de sustancias tóxicas para los seres humanos y nocivas para el medio ambiente en cada etapa del proceso de producción, al uso de tecnologías y máquinas avanzadas alimentadas por energía limpia a partir de sistemas fotovoltaicos, instalados en la cobertura del headquarter de Giussano. Aluminio, cristal, madera, materiales completamente reciclables y, en parte, ya reciclados, sino también las pinturas Ecolorsistem libres de disolventes y los sistemas de embalaje ecológicos. Testimonios de un adn green consolidado y una coherencia transversal, señales de una continua investigación y de una vista siempre tendida al futuro que se declina en la innovación tecnológica de sistemas, puertas y muebles, realizados con el conocimiento que desea confiar al hombre sólo actividades de alto valor añadido.

RU Обеспечение качества всегда и во всем. И, в том числе, для достижения этой цели Компания Rimadesio находится в постоянном поиске решений, направленных на улучшение экологических стандартов качества. Эта цель была достигнута благодаря использованию на каждом этапе производственного процесса ценных материалов, пригодных для вторичной переработки, отсутствию токсичных для человека и вредных для окружающей среды веществ, а также благодаря внедрению передовых технологий и оборудования, работающего на чистой энергии от фотоэлектрических систем, установленных на крыше штаб-квартиры компании в г. Джуссано. Компания использует такие материалы, как алюминий, стекло, дерево – полностью перерабатываемые и уже частично переработанные материалы, краски Ecolorsistem, не содержащие растворителей, а также экологически упаковку. Свидетельство консолидированной экологичности и непрерывной последовательности, исследовательской деятельности и взгляда, всегда устремленного в будущее, что выражается в технологических инновациях систем, дверей и мебели, произведенных с осознанием того, что человеку стоит поручать только деятельность с высокой добавленной стоимостью.

汉语 至始至终追求全方位的卓越品质。Rimadesio 肩负使命，不断探寻精进生态质量标准的解决方案。品牌目标之达成有赖于珍贵的可回收材料，该材料在所有制造阶段皆不会产生危害人体和环境之有毒物质，同时结合业界前沿的技术以及先进机械装置；而位于朱塞诺 (Giussano) 品牌总部建筑屋顶上的光伏发电设备为上述之机械装置供给干净的能源。除了可完全回收和已部分回收的铝材、玻璃、木材等材料之外，还有环保色彩系统 (Ecolorsistem) 的无溶剂涂料和生态环保型包装。深植的绿色DNA、跨领域的协同性、持续的研究工作以及具前瞻性的未来展望皆体现在家具系统、各式门类和家具配件的技术创新上，其本着信赖人类才能胜任高附加价值活动的意念研发而成。

ALUMINIUM

POWDER LACQUERED FINISHING
Detachment resistance of the layer of powder paint conforms to the norm. Corrosion resistance of the powder paint conforms to Machu test results and to the norm. Fingerprint resistance of the powder paint conforms to the norm.

GLOSSY ALUMINUM FINISHING
The glossy aluminium is realized through the procedure of scraping and polishing of the aluminium, both artisanal processes carried out through last generation plants.

NICKEL GRIGIO FINISHING
The nickel grigio finishing is obtained through several painting layers with the latest generation of enamels, capable of creating the appearance of the most natural metal oxidations. The special glossy effect is the result of a manual brushing and polishing process carried out on the raw material.

ANODIZED FINISHING
Abrasion resistance of the anodised finish conforms to the norm. Corrosion resistance of the anodised finishing conforms to the norm.

WOOD
Veneered elements, such as tops, cabinets and shelves, are produced by using materials in compliance with current regulations concerning the emissions of formaldehyde. Open pore painting with primer and non-toxic matt transparent acrylic finishing.

LITECH
Litech is a compact, hard, coloured and non-porous ceramic material, obtained through a mixture of clays, sand and other natural substances, that cooked at a high temperature (1000-1300 °C). The exclusive controlled intensity variation weave, created with the most innovative molding techniques with water-based ecologic and sustainable inks and enamels. High resistance to abrasion.

MATERIAL FABRIC
Italian handcraft fabric made of: viscose 43%, cotton 36%, polyester 15%, linen 6%. Resistance to scraping, Martindale test 25,000 twists. Resistance to pilling, class 4. Resistance to discolouration, Xenotest class 5. Conforms to BS 5852:1979 part 0 cigarettes test.

LUX FABRIC
Italian handcraft fabric made of: cotton 75%, silk 25%. Lux fabric is a sustainable and environmentally friendly material with recycled cotton fibers and biodegradable silk.

TECH FABRIC
Italian handcraft fabric made of: polyester 100% Trevira CS. Resistance to scraping, Martindale test 75,000 twists. Resistance to pilling, class 5. Resistance to discolouration, Xenotest class 5/6. Conforms to BS 5852:2006 Source 5 CRIB 5, BS 5852:1990 sez.4 part.1 cigarette test.

SYNTHETIC LEATHER
Latest generation material entirely produced in Italy and animal-derived components free, made of: polyester 8%, polyurethane 4%, pvc 88%, textile composition: polyester 100%. It is an exclusive by Rimadesio, resistant and high performing, it is also ortho-phthalates free, in accordance with the European Reach regulation for the protection of human health and the environment from the risks of chemical substances. The production system of Rimadesio synthetic leather complies with current environmental and quality standards.

LEATHER

Real bovine natural leather obtained by a process of tanning. The surface is polished to obtain the different colours of the collection.

ALLUMINIO

FINITURA ANODIZZATA
Resistenza all'abrasione della finitura anodizzata conforme alla norma. Resistenza alla corrosione della finitura anodizzata conforme alla norma.

FINITURA LACCATA A POLVERE
Resistenza al distacco dello strato di vernice a polvere conforme alla norma.

Resistenza alla corrosione della vernice a polvere conforme ai risultati del Machu Test e alla norma. Resistenza all'impronta della vernice a polvere conforme alla norma.

FINITURA ALLUMINIO LUCIDO
L'alluminio lucido viene realizzato mediante la spazzolatura e la brillatura dell'alluminio, entrambi processi artigianali eseguiti tramite impianti di ultima generazione.

FINITURA NICKEL GRIGIO
La finitura nickel grigio viene ottenuta mediante diversi passaggi di verniciatura con smalti di ultima generazione, in grado di conferire l'aspetto delle più naturali ossidazioni metalliche. Lo speciale effetto lucido è il risultato di un processo manuale di spazzolatura e brillatura effettuato sul materiale grezzo.

ESSENZE

Gli elementi impiallacciati, come piani, contenitori e ripiani, sono realizzati utilizzando tranciato conforme alle normative riguardanti le emissioni di formaldeide. Verniciatura a poro aperto con fondo e finitura acrilica atossica opaca trasparente.

LITECH

Rivestimento ceramico prodotto con minerali purissimi fusi ad alta temperatura e

realizzati mediante un'innovativa tecnica di stampa full digital a inciostri e smalti

all'acqua, ecologici e sostenibili. Materiale dotato di proprietà antibatteriche permanenti grazie all'azione degli ioni negativi d'argento integrati prima del trattamento di cottura finale a 1200°.

TESSUTO MATERIAL

Tessuto prodotto artigianalmente in Italia, composto da: viscosa 43%, cotone 36%, poliestere 15%, lino 6%. Resistenza a poro aperto, class 5. Resistance to discolouration, Xenotest class 5. Conforms to BS 5852:1979 part 0 cigarettes test.

TESSUTO LUX

Tessuto prodotto artigianalmente in Italia, composto da: cotone 75%, seta 25%. Il tessuto Lux è un materiale sostenibile ed ecologico con fibre di cotone riciclato e di seta biodegradabile.

TESSUTO TECH

Tessuto prodotto artigianalmente in Italia, composto da: poliestere 100% Trevira CS. Resistenza all'abrasione, test Martindale 75,000 giri. Resistenza al pilling, classe 5. Resistenza allo scolorimento, Xenotest classe 5/6. Conforms to BS 5852:2006 Source 5 CRIB 5, BS 5852:1990 sez.4 part.1 cigarette test.

SIMILPELLE

Materiale di ultima generazione realizzato interamente in Italia e privo di componenti di origine animale, composto da: poliestere 8%, poliuretanica 4%, pvc 88%, composizione tessile: poliestere 100%. Prodotto esclusivo Rimadesio,

resistente e altamente performante, privo di orto-fthalati, in linea con il regolamento europeo Reach per la protezione della salute e dell'ambiente dai rischi delle sostanze chimiche. Ogni fase di produzione della similpelle Rimadesio è conforme alle normative vigenti in materia ambientale e di gestione della qualità.

CUOIO

Vero cuoio bovino naturale, ricavato tramite processo di concia. La superficie viene verniciata per ottenere le varie colorazioni a catalogo.

ALUMINUM

ELOXIERTES FINISH

Die Abriebfestigkeit der anodisierten Oberfläche entspricht der Norm. Korrosionsbeständigkeit der Standard-Eloxal-Oberfläche.

PULVERLACKIERUNG

Standardgemäße Beständigkeit gegen das Ablösen der Pulverbeschichtungsschicht. Korrosionsbeständigkeit der Pulverbeschichtung gemäß den Ergebnissen des Machu-Tests und des Standards. Die Beständigkeit gegenüber dem Abdruck der Pulverbeschichtung entspricht dem Standard.

GLÄNZENDES ALUMINUM-FINISH

Poliertes Aluminium wird durch Bürsten und Polieren von Aluminium erreicht, wobei beide handwerklichen Verfahren durch die neuesten Energieerzeugungs- systeme ausgeführt werden.

NICKEL GRIGIO-FINISH

Résistance à l'abrasion de la finition anodisée est conforme à la norme. Résistance à la corrosion de la finition anodisée est conforme à la norme.

FINITION LAQUÉE À POUDRE

Résistance au décollement de la couche de peinture conforme à la norme. Résistance à la corrosion de la peinture à poudre conforme au Machu test et à la norme. Résistance à l'empreinte de la peinture à poudre conforme à la norme.

FINITION ALUMINUM POLI

L'aluminium poli est réalisé par le rayure et polissage de l'aluminium, deux procédés artisanaux réalisés par des équipements de dernière génération.

FINITION NICKEL GRIGIO

La finition en nickel grigio est obtenue grâce à plusieurs passages de peinture réalisés avec les émaux de dernière génération, capables de donner une apparence naturelle des oxydations métalliques. L'effet brillant spécial est le résultat d'un processus de brosse et de polissage manuel effectué sur la matière première.

BOIS

Les éléments de placage, comme les plateaux, les conteneurs et les étagères, sont produits avec un tranchage conforme aux normes concernantes les émissions de formaldéhyde. Verni à pores ouverts avec un apprêt à base d'eau non toxique et finition acrylique mate et transparent.

LITECH

La Litech est un matériau Litech compact, dur, coloré et non poreux, obtenu à partir de mélanges d'argiles, de sable et d'autres substances naturelles, qui sont cuites à haute température (1000-1300 °C). Le tissage exclusif est créé avec les techniques de moulage les plus innovantes avec des encres et émaux à base d'eau, écologique et durable. La résistance élevée à l'abrasion.

STOFF LUX

In Italien handwerklich produzierte Stoffe die sich aus 75% Baumwolle, 25% Seide. Lux Stoff ist ein nachhaltiges und umweltfreundliches Material aus

rezikierten Baumwollfasern und biologisch abbaubaren Seide.

STOFF TECH

In Italien handwerklich produzierte Stoffe die sich aus 100% Polyester Trevira CS zusammensetzen. Korrosionsprüfung: Martindale Test auf 75.000 Touren Pillingstest: Klasse 5. Verfärbungsprüfung: Xenotest Klasse 5/6. Gemäß Norm BS 5852:2006 Quelle: 5 CRIB 5, BS 5852:1990 Sektion 4 Teil 1 Zigarettentest.

KUNSTLEDER

Vollständig in Italien hergestelltes hochmodernes Material ohne Bestandteile tierischen Ursprungs, bestehend aus: 8% Polyester, 4% Polyurethan, 88% PVC; Textilzusammensetzung: 100% Polyester. Dies ist ein exklusives, widerstandsfähiges und leistungsstarkes Rimadesio Produkt, das gemäß der europäischen Reach-Verordnung keine Ortho-Phthalate enthält. Dies dient zum Schutz der Gesundheit und Umwelt vor den Risiken chemischer Substanzen. Jede Stufe der Kunstlederproduktion von Rimadesio entspricht den geltenden Umwelt- und Qualitätsmanagement Vorschriften.

LEDER

Echtes Rindleder, erhalten durch einen Bräunungsprozess. Die Oberfläche ist lackiert, um die verschiedenen Farben im Katalog zu erhalten.

ALUMINIUM

FINITION ANODISÉE

Résistance à l'abrasion de la finition anodisée est conforme à la norme. Résistance à la corrosion de la finition anodisée est conforme à la norme.

Résistance au décollement de la couche de peinture conforme à la norme. Résistance à la corrosion de la peinture à poudre conforme au Machu test et à la norme. Résistance à l'empreinte de la peinture à poudre conforme à la norme.

FINITION NICKEL GRIGIO

La finition en nickel grigio est obtenue grâce à plusieurs passages de peinture réalisés avec les émaux de dernière génération, capables de donner une apparence naturelle des oxydations métalliques. L'effet brillant spécial est le résultat d'un processus de brosse et de polissage manuel effectué sur la matière première.

BOIS

Les éléments de placage, comme les plateaux, les conteneurs et les étagères, sont produits avec un tranchage conforme aux normes concernantes les émissions de formaldéhyde. Verni à pores ouverts avec un apprêt à base d'eau non toxique et finition acrylique mate et transparent.

LITECH

Le tissage exclusif est créé avec les techniques de moulage les plus innovantes avec des encres et émaux à base d'eau, écologique et durable. La résistance élevée à l'abrasion.

STOFF LUX

In Italien handwerklich produzierte Stoffe die sich aus 75% Baumwolle, 25% Seide. Lux Stoff ist ein nachhaltiges und umweltfreundliches Material aus

TISSU MATERIAL

Tissu fabriqué à la main en Italie et composé de: 43% viscose; 36% coton; 15% polyester; 6% lin. Résistance à l'abrasion, test Martindale 25.000 rpm. Résistance Pilling, classe 4. Résistance à la décoloration, classe 5 Xenotest. Conformément à la législation BS 5852-1979 Partie 0, cigarettes test.

TISSU LUX

Tissu fabriqué à la main en Italie et composé de: 75% coton; 25% soie. Le tissu Lux est un matériau durable et écologique composé de coton recyclé et de fibres de soie biodégradables.

TISSU TECH

Tissu fabriqué à la main en Italie et composé de: 100% Polyester Trevira CS Résistance à l'abrasion, test Martindale 75.000 rpm. Résistance Pilling, classe 5. Résistance à la décoloration, classe 5/6 Xenotest. Conformément à la législation BS 5852:2006 Source 5 CRIB 5, BS 5852:1990 sez.4 partie 1 cigarettes test.

TEJIDO LUX

Tejido producido artesanalmente en Italia,

compuesto por: viscosa 43%, algodón 36%, poliéster 15%, lino 6%. Resistencia a la abrasión, Martindale prueba de 25.000 rpm. Resistencia al pilling, clase 4. Resistencia a la decoloración, Xenotest clase 5. Conforme a la normativa BS 5852-1979 Part 0 cigarettes test.

TEJIDO TECH

Tejido producido artesanalmente en Italia, compuesto por: 75% algodón, 25% seda. El tejido Lux es un material sostenible y ecológico con fibras de algodón recicladas y seda biodegradables.

SIMILICUR

Matériel de dernière génération entièrement réalisé en Italie et sans aucun élément d'origine animale, composé de polyester 8%, polyuréthane 4%, pvc 88%, composition textile: polyester 100%.

Produit exclusif Rimadesio, résistant et très performant, sans orthophthalates,

conformément au Règlement européen Reach pour la protection de la santé et de l'environnement des risques causés par les substances chimiques.

Chaque phase de production du simili cuir Rimadesio se conforme aux réglementations environnementales en vigueur et de gestion de la qualité.

CUIR

Vrai cuir naturel, obtenu par un procédé de bronzage. La surface est vernie pour obtenir les différentes couleurs dans le catalogue.

ALUMINIO

ACABADO ANODIZADO

Resistencia a la abrasión del acabado anodizado cumple con la norma.

Resistencia a la corrosión del acabado anodizado cumple con la norma.

ACABADO LACADO EN POLVO

Resistencia al desprendimiento de la capa de laca en polvo cumple con la norma.

Resistencia a la corrosión de la laca en polvo conforme con los resultados de la prueba del Machu Test y con la norma.

Resistencia a la impresión de la laca en polvo cumple con la norma.

ACABADO DE ALUMINIO BRILLANTE

El aluminio pulido se produce mediante rayadura y pulido de aluminio, ambos procesos artesanales realizados por medio de sistemas de última generación.

ACABADO DE NICKEL GRIGIO

El acabado nickel grigio se obtiene mediante varios pasos de pintura con esmaltes de última generación, capaces de dar el aspecto de las más naturales oxidaciones de metales. El efecto brillante especial es el resultado de un proceso de cepillado manual y pulido realizado sobre la materia prima.

MADERA

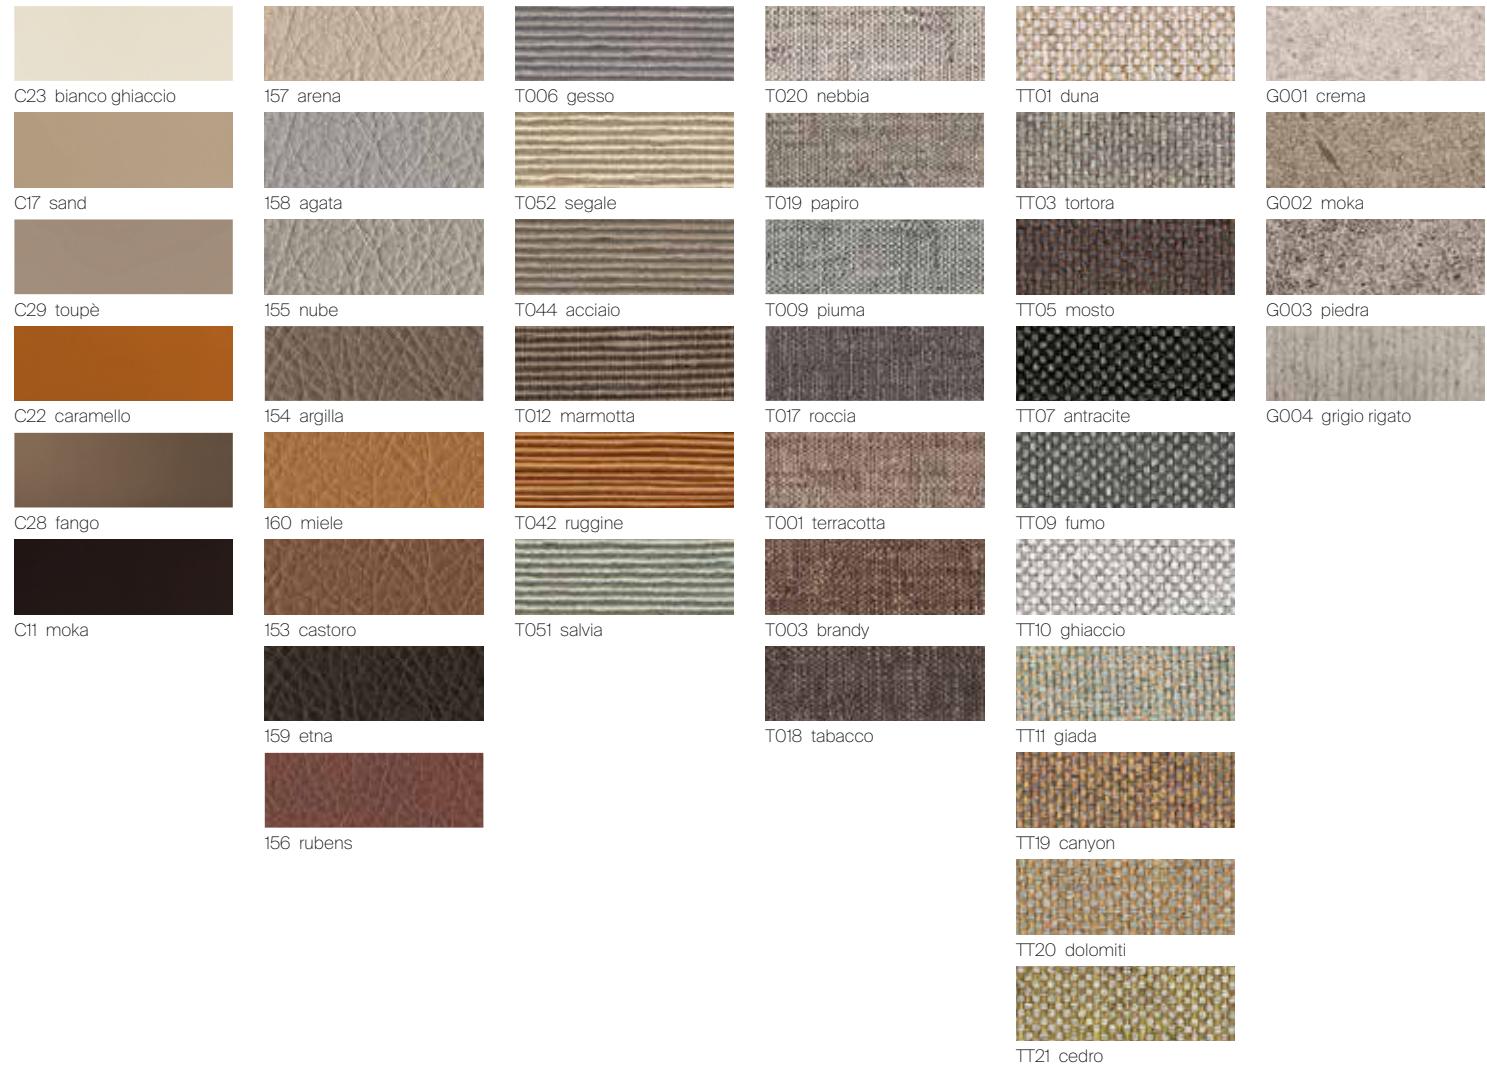

Los elementos chapados de madera, como encimeras, contenedores y estantes, se realizan utilizando hojas conformes a las normas sobre las emisiones de formaldehído. Pintura de poro abierto con impresión a base de agua y acabado acrílico mate transparente atóxico.
